MANAGEMENT DISCUSSION AND ANALYSIS:

INDUSTRY STRUCTURE AND DEVELOPMENTS:

Global scenario

Sugar is one of the world's major agro-based industries and is also one of the most actively traded soft commodities on the exchanges. Brazil, India, the EU, China and Thailand rank amongst the top global producers of sugar. Around 80% of the sugar is produced from sugarcane while the balance is from sugar beet. Brazil and India are the largest sugar producers from sugarcane and EU and U.S are the major sugar producers from beet. India, the EU, China, Brazil and U.S are the major sugar consuming countries.

Global trends in sugar

The global sugar production for the sugar year 2015-16, is estimated at 172 million MT against 187.9 million MT of previous year, decreased by 4%, and for the first time in the last five years 2015-16 is likely to end in global deficit. The world sugar prices continued pushing prices down across the major sugar producing countries due to surplus stocks.

Domestic Scenario

As per Indian Sugar Millers Association (ISMA), the all India domestic sugar production upto March 31, 2016 is expecting to stand at 23.7 million tonnes, with a drop of 1.1 million tonnes compared to previous year. The decline in production is due to drought conditions prevailed over the states of Telangana, Andhra Pradesh, Karnataka and Maharashtra which has impacted on the per acre yield of cane. The drought conditions will lead to poor planting for the coming sugar season 2016-17 and the production is estimated at 24 million tonnes. The domestic sugar consumption for the year 2015-16 is estimated at 25.5 million tonnes and clubbed with exports around 1.5 million tonnes will exceed the sugar production forecast. Consequently the sugar prices are expected to rise.

Price of Sugar Cane

For the sugar year 2015-2016, the Commission for Agricultural Costs and Prices (CACP) has recommended a Fair and Remunerative Price @ ₹ 2300/- per Tonne for a basic recovery rate of 9.5% with a premium of ₹ 0.242 for every 0.1% increase in the recovery rate. There has been a steady increase in the Fair and Remunerative Price, without any corresponding increase in the sale price of sugar. For a recovery of 9.5% per tonne, the FRP has continued to rise from ₹ 2100 in SY 2013-14 to ₹ 2200 for SY 2014-15 to ₹ 2300 per tonne for SY 2015-2016. However, for SY 2016-2017, the Government has committed to continue with the FRP of ₹ 2300 per tonne. Further the Central Government announced a production subsidy of ₹ 45 per metric tonne of cane, subject to certain conditions by sugar mills, pegging the effective cane price at ₹ 2255/- Mt for a recovery of 9.50%. The CACP has also recommended for creation of a Sugarcane Price Stabilization Fund mobilized through levy of a special cess to meet the differential price between the price determined through a Revenue Sharing Formula and the FRP which will be an effective mechanism to support the Industry in case of fall in sugar price.

Sugar Price

The sugar prices touch a three-year low of around ₹ 2000 to ₹ 2300 per quintal in July 2015 caused by consecutive years of surplus production from SY2013 leading to surplus sugar in the

domestic market along with the international sugar-surplus scenario and muted international sugar prices. However, since August 2015 the sugar realizations are on a rising trend with prices increased marginally to around ₹ 2400 per quintal in August 2015 with the government considering the option of exporting surplus sugar. After the government notified the mandatory export quota for SY 2016, domestic sugar prices firmed around ₹ 2550 per quintal in September 2015. Festive demand for sugar during the months of October and November 2015 led to an increase in sugar prices to nearly ₹ 2600 per quintal. The announcement of cane production subsidy in December 2015, the expected increase in sugar exports and the sugar deficit scenario due to drought have combined to cause sugar prices to firm up to ₹ 3100 per quintal in February 2016 and to ₹ 3160 per quintal in March 2016. However, going forward, despite of lower sugar production during SY 2016, the sustainability of the upward trend in sugar prices will remain.

OPPORTUNITIES AND THREATS:

Sugar Industries is cyclic, heavily dependent on unpredictable weather patterns, macroeconomics trends and volatile market prices. The past year pushed the sugar industry across the globe to a record loss in prices.

Last year the Sugar industry in India went through an unprecedented crisis due to all time loss sugar selling prices caused by fifth straight year of surplus production as well as a drop in global prices.

In view of the fragmented capacity and high input costs, leads to systematic un-competitiveness in the world market. As a result, sugar exports often times have to rely on the crutches of Government support measures.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE:

Sugar:

During the year under review, the crushing operations for the crushing season 2015-16 were started at Kamareddy Unit on 18th November 2015 and closed the operations on 19th March, 2016. The operations at Nizamsagar Unit started on 18th November 2015 and closed on 29th February, 2016.

During the Crushing Season 2015-16, at both the units, 6.56 Lakh Tonnes of Sugar Cane was crushed and 7.42 Lakh Quintals of sugar produced with an average recovery of 11.31% comparing to the previous season figures of 7.14 Lakh Tonnes of Sugar Cane and Sugar of 7.91 Lakhs Quintals with an average recovery of 11.06%. In detail, at Kamareddy Unit, 3.93 Lakh Tonnes of Sugar Cane was crushed (Previous Season 3.93 Lakh Tonnes) and produced sugar of 4.40 Lakhs Quintals (Previous Season 4.39 Lakh Quintals) with an Average Recovery of 11.20% (Previous Season 11.18%) and at Nizamsagar Unit 2.62 Lakh Tonnes (Previous Season 3.21 Lakh Tonnes) of Sugar Cane and produced sugar of 3.02 Lakhs Quintals (Previous Season 3.51 Lakh Quintals) with an Average Recovery of 11.48% (Previous Season 10.94%).

Distillery:

During the Financial Year, the Distillery unit produced Rectified Spirit (RS) of 50.70 Lakh Liters and Impure Spirit (IS) of 1.86 Lakh Liters and Ethanol of 17.34, totally 69.90 lakh Liters (compared to the previous year of Rectified Spirit (RS) of 91.84 Lakh Liters and Impure Spirit (IS) 2.46 Lakhs Liters totally 94.36 lakh ltrs).

Power:

The Export of Power during the crushing season 2015-16 was to the extent of 214.07 Lakh kwh (Kamareddy Unit 55.12 Lakh kwh & Nizamsagar Unit 158.95 lakh kwh) as compared to the previous year season of 243.43 lakh kwh (Kamareddy Unit- 60.84 Lakh kwh & Nizamsagar Unit- 182.59 Lakh kwh).

Manufacturing:

The Company is continuously implementing better manufacturing methods to increase operational efficiencies and to eliminate process losses. This has resulted in achieving higher of Recovery of 11.31% for the year 2015-16 compared to 11.06% in the 2014-15.

OUTLOOK:

The long-term profitability of Indian sugar companies will remain highly cyclical and dependent on domestic and international supply demand trends. The latter in turn would hinge on agro-climatic conditions in the major sugar producing countries and the trends in crude oil prices. The price trends in the international markets will be one of the key determinants of the future profitability. Further, government/court action in ensuring removal of mandatory crushing by sugar mills for the entire cane offered to them by farmers in the command area and a rational linkage between cane and sugar prices will have a critical bearing on the long-term viability of sugar operations, especially in States governed by SAP (State Administered Price). However, the sugar industry players with high operating efficiencies, forward integration and strong capital structure will be best placed to ride out the cycles.

Government of India steadfastly focused on and deeply committed to stepping up the ethanol blend from 5% to 10%. This must act as a booster-dose to by-product value addition to sugar industry.

RISKS AND CONCERNS:

The major risks faced by Sugar business are the availability of cane, regulatory risks, price of sugar and that of sugar cane. The management periodically reviews the risk management framework to identify the major business risks as applicable to the Company and works out their mitigation strategy. Sugarcane is the key raw material for sugar and any difficulty in getting cane at right time will have impact on the business. The key factors that influence cane availability are climatic condition, availability of cane harvesting labour and farmers opting competitive crops.

The sugar industry is regulated by the central and state governments. The risks of rising prices of sugar cane and volatility in sugar prices are expected to be met by a number of measures viz. improving the yield, increasing the cane cultivation and improving the operating efficiency etc. besides effort to increase the revenue from the byproducts.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has well-established processes and clearly-defined roles and responsibilities for people at various levels. The control mechanism also involves well documented policies, authorisation guidelines commensurate with the level of responsibility and standard operating procedures specific to the respective businesses. Adherence to these processes is ensured through frequent internal audits and adequate and effective internal audit system that employs periodic checks on on-going process. The internal audits conducted are reviewed by the Audit Committee and requisite guidelines and procedures augment the internal controls. The internal control system is designed to ensure that financial and other records are reliable for preparing financial

statements and other information which ensures that all transactions are properly reported and classified in the financial records.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

During the Financial Year 2015-16, the Overall performance of the Company both the units viz. Kamareddy and Nizamsagar put together are as under:

Production:

Details	Financial Year 2015-16	Financial Year 2014-15
Total Cane Crushed	6,55,957 Tonnes	7,14,529 Tonnes
Sugar Production	7,41,810 Quintals	7,91,191 Quintals
Recovery	11.31 %	11.06 %
Molasses production (Tonnes)	30,845 Tonnes	32,369 Tonnes
Power Exported (lakh units)	214.07 lakh Units	243.43 lakh Units
Distillery Unit: Rectified Spirit (RS), Impured Spirit (IS) and Ethanol Production	69.90 lakh Liters	94.36 lakh Liters

INDEPENDENT AUDITOR'S REPORT

To the Members of Gayatri Sugars Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Gayatri Sugars Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under Section 133 of the Act, as applicable.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order under Section 143 (11) of the Act.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016, and its loss and its cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to Note 31 to the financial statements, which indicates that as at March 31, 2016 the accumulated losses amounting to ₹ 13,884.97 lakhs have completely eroded the net-worth of the Company and, the current liabilities exceeded the current assets as on that date. These conditions along with other matters as set forth in Note 31, including dependence on continuous support from its promoters, indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The Company has made a reference to the Board for Industrial and Financial Reconstruction (BIFR) and shall be submitting a Scheme for revival / rehabilitation to BIFR. These financial statements have been prepared on a going concern basis for the reasons stated in the said Note.

Our opinion is not modified in respect of this matter.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Gayatri Sugars Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for the Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting

principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified opinion

According to the information and explanations given to us and based on our audit, material weakness has been identified as at March 31, 2016 in the Company relating to inadequate internal financial controls over financial reporting in respect of certain reconciliations between various accounting systems, fully described in Note 33 to the financial statements.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, to the best of our information and according to the explanations given to us, except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weakness identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the financial statements of the Company for the year ended March 31, 2016, and the material weakness does not affect our opinion on the said financial statements of the Company.

The Management believes that the estimate used in preparation of the financial statements are prudent and reasonable. Actual results could differ due to those estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known materialize.

2.3 Inventories

Raw materials, Stores and Spares and Consumables are valued at First in First out basis. Cost includes applicable taxes, duties, transport and handling costs.

Finished goods are valued at cost or net realizable value whichever is lower. Cost is average cost and includes all material costs, direct and indirect expenditure and inclusive of excise duty.

Work-in-progress is valued at cost inclusive of factory overheads.

By-products are valued at estimated net realisable value as the cost is not ascertainable.

2.4 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6 Fixed Assets, Depreciation and amortisation

Fixed Assets are stated at cost (net of CENVAT) less depreciation. Cost includes installation and expenditure during construction, including freight, insurance, borrowing costs and incidental expenses relating to acquisition. Fixed assets costing less than ₹ 5,000 are fully depreciated in the year of purchase. Depreciation is provided on straight line method as per the rates and in the manner prescribed in Schedule III to the Companies Act, 2013.

Goodwill on Amalgamation is being amortised on Straight Line Basis over a period of ten years.

2.7 Impairment of Assets

At each Balance Sheet date, the carrying values of the assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where there is an indication that there is a likely impairment loss for a group of assets, the company estimates the recoverable amount of the group of assets as a whole, to determine the value of impairment.

2.8 Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods are transferred to the customer and is stated net of trade discounts, sales returns but inclusive of excise duty.

Revenue from sale of power is recognised when the units generated are transmitted to the pooling station, in accordance with the terms and conditions of the power purchase agreement entered into by the Company with the purchasing party.

2.9 Other income

Dividend income is recognised when the unconditional right to receive the income is established. Interest Income is recognised on a time proportionate method using underlying interest rates.

2.10 Foreign currency transactions and translations

Initial recognition

Transactions in foreign currencies entered into by the Company and its integral foreign operations are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date

"Foreign currency monetary items (other than derivative contracts) of the Company and its net investment in non-integral foreign operations outstanding at the Balance Sheet date are restated at the year-end rates.

In the case of integral operations, assets and liabilities (other than non-monetary items), are translated at the exchange rate prevailing on the Balance Sheet date. Non-monetary items are carried at historical cost. Revenue and expenses are translated at the average exchange rates prevailing during the year. Exchange differences arising out of these translations are charged to the Statement of Profit and Loss."

2.11 Employee Benefits

Liability for employee benefits, both short and long term, for present and past services which are due as per the terms of employment are recorded in accordance with Accounting

Standard (AS-15) "Employee Benefits" notified by the Companies (Accounting Standards) Rules, 2006.

i Gratuity

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees on retirement, death while in employment or on termination of employment in an amount equivalent to 15 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The Gratuity plan of the entity is an unfunded plan. The Company accounts for the liability for future Gratuity benefits on the basis of an independent actuarial valuation.

ii Provident Fund

In accordance with applicable local laws, eligible employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan to which both the employee and employer contribute monthly at a determined rate (currently up to 12% of an employee's salary). These contributions are either made to the respective Regional Provident Fund Commissioner, or the Central Provident Fund under the state pension scheme, and are expensed as incurred.

iii Liability for Compensated absences

The accrual for unutilized leave is determined for the entire available leave balances standing to the credit of the employees at the year end. The value of such leave balance eligible for carry forward, is determined by actuarial valuation at the year-end recognised in the statement of profit and loss.

2.12 Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised till the date the assets are put to use. All other borrowing costs are charged to revenue.

2.13 Leases

Leases, where the lessor retains substantially all the risks and rewards incidental to the ownership are classified as operating leases. Operating lease payments are recognized as an expense in Profit and Loss account on Straight Line basis over the lease term.

2.14 Segment reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

2.15 Earnings Per Share

The basic and diluted earnings per share ("EPS") are calculated by dividing the profit / (loss) after tax by the weighted average number of Equity Shares outstanding. Diluted earnings per share is computed by dividing net profits for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date.

2.16 Taxes on income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

2.17 Provisions and Contingencies

A provision is recognised when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but are disclosed in the notes to the financial statement. A contingent asset is neither recognised nor disclosed.

2.18 Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Note 30 There are no derivative contracts taken during the year and outstanding as at the year-end. Further, there are no foreign currency exposures as at the year-end.

Note 31 Over the last few years, the Company has been incurring losses and as at March 31, 2016 the accumulated losses amounting to ₹ 13,884.97 lakhs have completely eroded the net worth and, its current liabilities exceeded the current assets as on that date. The Sugar Companies have been facing financial difficulties on account of higher sugar cane prices, lower realization of sugar and high finance cost. The Company has implemented various initiatives for improving its financial position. The State and Central Governments, recognizing the importance of sugar industry, are taking necessary steps to strengthen it. As of March 31, 2016 the promoters have arranged an unsecured loan of ₹ 2,259.85 lakhs. Further during the previous year, the unsecured loan of ₹ 2,500 lakhs has been converted to 6% Cumulative Redeemable Preference Shares at a face value of ₹ 10 each for a tenure of not exceeding 9 years. In addition to the promoters funding, during the year ended March 31, 2016, the Company has obtained soft loans (under the scheme sanctioned by Ministry of Consumer Affairs, Food and Public Distribution, Government of India) aggregating ₹ 2,012 lakhs, corporate loans aggregating ₹ 1,545 lakhs and also renewed its working capital limits with the banks.

Owing to the complete erosion of the net-worth of the Company, the Board of Directors, in their meeting held on August 14, 2015 decided to make a reference under the Sick Industrial Companies (Special Provisions) Act, 1985 (SICA) to the Board for Industrial and Financial Reconstruction (BIFR) which reference was registered and acknowledged by BIFR vide their letter dated October 19, 2015. On May 13, 2016, the company received a letter dated May 6, 2016, from BIFR, stating that the date for hearing the case in relation to the proceedings under the Sick Industrial Companies (Special Provisions) Act, 1985, has been fixed on May 11, 2016. However, as the date fixed for hearing the case had lapsed by the time the Company received the letter from BIFR, the Management is in the process of replying to BIFR with a request for a revised hearing date. In terms of the aforesaid reference, on receiving the intimation from BIFR, the Company will be submitting a Scheme for revival / rehabilitation to BIFR as per the provisions of SICA. The financial statements have been prepared on

a going concern basis, based on a Comfort letter provided by the promoters for continued support to the Company to meet its financial obligations, in order to enable the Company to continue its operations in the foreseeable future.

Note 32 Exceptional item

- (a) During the year ended March 31, 2016, the Telangana State Electricity Regulatory Commission (TSERC) has passed the final order on September 18, 2015 for upward revision of tariff in favour of the Company in respect of energy exported in the earlier years by the Company to Telangana State Northern Power Distribution Company Limited (TSNPDC) . The Management on receipt of the TSERC order has recognized the differential revenue of ₹ 227.40 lakhs during the year ended March 31, 2016, which amount has been received.
- b)i) The Company paid interest on Working Capital loans raised from the Banks at a concessional rate under Corporate Debt Restructuring ('CDR') scheme as per the Reserve Bank of India guidelines, pursuant to which, the Banks had a Right of Recompense ('ROR') i.e. interest rate concession given earlier to the Company, which shall be compensated by the Company at the end of the scheme. Upon expiry of the CDR time period, the respective banks raised a demand of ₹ 840 lakhs towards ROR and the Company's proposal for payment of interest claims partly in cash and the balance in the form of issue of redeemable preference shares had not been agreed by the banks during the previous years. The Company paid and charged to the Statement of Profit and Loss an amount of ₹ 84 lakhs during the year ended March 31, 2014. As the Company was incurring losses for past few years and there was no cash surplus, the Company was pursuing with the banks for waiver of balance amount of ₹ 756 lakhs. During the consortium meeting held on June 9, 2014, the member banks of the consortium had decided not to consider, the waiver request of the Company and requested the Company to make the payment of the balance ROR amount before March 31, 2015. Consequently, the Management agreed to pay balance ROR amount in installments and accordingly an amount ₹756 lakhs was provided during the previous years. The Company's proposal for the payment of ROR by way of Non-Convertible Debentures (NCD's) at a coupon rate of 4% was approved in the meeting of CDR EG on February 22, 2016. Further, the company was directed to complete the issuance of NCD's by March 2016. As the Company has received the communication of the same late and also keeping in view the procedure involved in issuance of NCD's, the Company has requested CDR EG to grant time until July, 2016 to complete the process of issuance and despatch of NCD's.
- ii) Pursuant to the Scheme of Amalgamation, between the Company and GSR Sugars Private Limited, during the year ended March 31, 2010, the Company had recognised Goodwill of ₹ 1,212 lakhs, which was being amortised over a period of ten years. The carrying value of goodwill as at March 31, 2015 was ₹ 606.16 Lakhs. In view of losses and complete erosion of net worth, more fully detailed in Note 31, the Management opined that the goodwill is required to be impaired. Consequently, during the year ended March 31, 2015 the entire carrying value of the goodwill of ₹ 606.16 lakhs was impaired and charged to the Statement of Profit and Loss.

Note 33 Financial Reporting Process

The Management conducted an assessment of the effectiveness of the internal control over financial reporting using the criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Based on this assessment, Management identified a deficiency in the internal control over financial reporting, that constitutes a material weakness, in respect of certain reconciliations between various accounting systems.

The Company uses various subsystems, the output from which, is being used for accounting in the financial package maintained by the Company. Consequent to certain deficiencies in IT General and Application controls in the software platforms used for financial reporting, there were differences between sub-systems / sub-ledgers with the general ledger, which have been manually reconciled by the Company. Whilst necessary adjustment entries were passed in the books of account for the year ended 31st March 2016, the related material weakness in internal control was remediated after the year-end.

Note 34 Previous year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classification / disclosure.
