PROJECTS:

Demand for Caustic Soda is on the rise. Our Major customers in Private and Public Sectors have been consistently lifting their commitments. As a part of ongoing market programme efforts are directed towards widening the customer base. Keeping this in mind, your Company is going for Expansion from existing 500 Tonnes per day to 600 Tonnes per day Membrane Cell Caustic Soda facility at Chemical Complex, Saggonda. This Expansion is based on the latest 6th generation of Environment friendly and Energy-efficient Membrane Cell Technology supplied by M/s. Thyssenkrupp Industrial Solutions India Pvt. Ltd., a renowned International organization having expertise and experience in establishing Chemical Plants. This process has the lower production cost, simple operations, Energy Efficient & Environmental friendly. Salt and Power constitute two main inputs for production of Caustic Soda. As your Company is already in the production of Caustic Soda, procurement of Salt can be sourced from the existing vendors. Power, another major input, can be availed from 33 MW Coal based Captive Power Plant in operation. Environmental Clearance and Consent for Establishment are in place for a Total Capacity of 800 TPD at Saggonda. The estimated Project Cost of Rs.100.00 Crores is being met by internal generation. The Plant is expected to commence operations by September, 2022.

Sulphuric Acid is widely used in Pharmaceutical, Fertilizer and Water Treatment Industries causing the increase in demand of this product.

Your Company is setting up a 500 TPD Sulphuric Acid Plant at Chemical Complex, Saggonda with an estimated cost of Rs.100.00 Crores being met by internal generation. Consent for Establishment is yet to be obtained. The Plant is expected to commence operations by September, 2022.

The Plant being set up at J.N. Pharmacy, Parawada, Visakhapatnam is in progress. Major works have been completed. The Project is expected to be completed by December, 2021.

Keeping in view the need for your Company to expand the base of its Chlor-Alkali operations, an application to the concerned authorities has been made for the establishment of Plants at J.N. Pharmacy, Parawada, Visakhapatnam for 245 TPD Caustic Soda, 50 TPD Caustic Potash, 600 TPD Hydrochloric Acid, 300 TPD Sulphuric Acid and 200 TPD Chlorine.

RISK MANAGEMENT POLICY / COMMITTEE:

The company has framed a Risk Management Policy which envisages the following

- 1 Identification of areas of Risk
- 1 Assessing the impact of Risks
- 1 Steps taken to mitigate the Risk

The Major Segments of operations of the Company are Sugar and Chlor Alkali.

The major aspects of concern for the Sugar Sector are:

- 1) Lack of Harvesting Labour
- 2) Power to operate the irrigation requirements
- 3) Proper Cane Varieties that give good Cane and Sugar yield that are suitable for mechanical harvesting.

To get around the 1st aspect, the Company has embarked upon locating the right Cane Harvester suited to our Grower Farm sizes. The 2nd aspect is being taken care of by setting up a Solar Powered Pumping System at our R & D Farm so that our Growers could ultimately be provided the right guidance in this aspect. The 3rd aspect is being met by the Cane Breeding Programme undertaken by the Company.

Chlor Alkali segment is power intensive where Power constitute a major input cost. Restricted power supply and increased power cost have become a cause of concern. To mitigate this impact, a Solar Power Plant has been commissioned at Kovvur. At Saggonda a 33 MW Coal Based Power Plant has been commissioned. This would improve the power availability to the Chemical Plants at Saggonda.

MANAGEMENT DISCUSSION AND ANALYSIS

SUGAR :

Sugar Industry is an important Agro-based Industry that impact the rural livelihood of 50 Million farmers and around 5 lakh workers directly employed in Sugar Mills. This also generates indirect employment like transport services, trade servicing of machinery and supply of Agricultural inputs.

Sugar Industry continues to be in a difficult situation which has culminated into a crisis. The Cane Pricing Policy of the Central and State Governments without linking to the Sugar price has been detrimental to the financial health of Sugar Industry. This has made many Sugar Mills sick in view of the mounting arrears of cane payments. In such a dismal scenario, there is an urgent need for the Government to ensure parity of cane price payable by Mills to farmers and the sale price realisation to the Mills which would enable the Mills to ensure prompt payment to the farmers without any arrears. Mounting cane arrears has become a worrying factor for the Industry. Further, the land available for planting Sugarcane crop is coming down year by year due to low yield of Sugarcane per hectare and also in view of farmers opting to grow other crops where they can get quick realisation of cash. High cost of production specially increasing labour cost and un-scientific method of cane price fixation has severely impacted the financial health of the Mills.

At present the focus of the Government should be to provide incentives for development of high yielding and high sucrose content varieties of cane and also to ensure that diseases and pest do not damage the Sugarcane crop. In view of the slow movement of Sugar stocks in domestic market, there is also a need for Government to continue export subsidies. It is welcoming that to give encouragement to Mills to step-up Ethanol production, a significant step has been taken by the Government permitting production of Ethanol directly from Sugarcane juice. This will facilitate the Mills in creating new Ethanol capacities. This would also give impetus to the Government's Ethanol Fuel Blending Programme. However, it is important that the price paid by Oil Manufacturing Companies matches the efforts and cost of production of Ethanol.

Due to Lockdown of COVID-19, the off-take of Industrial Users have come down drastically. This has made it difficult for the Sugar Mills to dispose of their stocks and consequently the price realisation of Sugar Mills has been hit hard. Sugar Mills are not even able to recover Fair Remunerative Price, fixed by Government of India. This is making it difficult for Sugar Mills to meet the cane payment obligation. Measures such as Rural Employment Guarantee Scheme which is being offered by the Government of India requires to be introduced for cane harvesting labour also so as to be helpful to the cane growers. Arranging Awareness Programmes by State and Central Governments is very much needed to motivate the Cane Growers to realise the benefits of Mechanisation in Sugarcane farming, good ratoon crop management and adopting of other new agricultural practices to improve the yield.

CHLOR ALKALI:

Your Company has an Integrated Chemical Complex at Saggonda manufacturing Caustic Soda, Chlorine and other Allied Products. A 500 TPD Caustic Soda Plant is in operation at Saggonda village of Gopalapuram Mandal and a 25 TPD Caustic Potash Plant at Kovvur, West Godavari District, Andhra Pradesh.

During the year 2020-21, Domestic Caustic Soda markets witnessed severe volatility, having been affected by the following causes :

- F Due to unprecedented pandemic COVID-19 conditions, Govt. of India has announced nation-wide lockdowns in phased manner throughout the Country, as a preventive measure. Restrictions were also imposed on movement of Transportation, which has hampered significantly on the Supply Chain Management. Due to slowdown of most manufacturing activities, demand was affected for various products and Chemicals. Consequently, Plants were operating at 30-40% capacity in many of the work places during 1st Quarter of Financial Year.
- F During the year 2020-21 Indigenous Caustic Soda annual manufacturing capacities have been increased from 46,89,619 MTs to 55,40,577 MTs. Compared to previous year, it is higher by 8,50,958 MTs. With abundant availability of Caustic Soda in all the regions, steep price fall has been determined in the Domestic Markets.
- F Due to surplus availability of Caustic Soda in the Domestic Markets, prices are getting fluctuations very often. In this connection, Alkali Manufacturers Association of India (AMAI) has submitted representation to Government of India on behalf of the AMAI member Units to get a level playing field by way of increase in Customs Duties on Caustic Soda Imports to partly offset the disadvantages suffered by the domestic manufacturers. Primarily disposal of Chlorine, which comes out of the Production of Caustic Soda, has

been a cause of concern for Caustic Industry. This concern is further aggravated due to coming of Chlorine based products into the Country from overseas destinations. This has made the disposal of Chlorine further difficult resulting in piling of Chlorine Inventory and consequent upon this situation the realization from the sale of Chlorine in domestic market is on a lower side.

- F Secondly, the Power which is a major input for the production of Caustic Soda is required to be available at an economical price. There is a need for the Government to classify this Industry under "Energy Intensive Industry" in order to get the benefit of availing Power at a concession rate.
- F Despite the prevailing market constraints, your Company, due to Goodwill, is getting consistent support from the bulk Customers and Traders who have been honouring their off-takes. This has given an advantage to your Company to produce Caustic Soda as per the Production and Marketing Plans drawn out.

ASPIRIN:

In the year 2018-19 a great amount of consolidation in the number of manufacturers of Aspirin formulations at the premium end, with the brands of Novartis, Sandoz and Pfizer all being consolidated under one single umbrella of GSK Consumer Health. Due to this reason, our export quantities are lower than the Financial Year 2019-20. However, we are working on to increase the Global Business particularly in Regulatory Markets, as our Company's Aspirin Plant is meeting the international standards under the current Good Manufacturing Practices (cGMP) and has been audited and approved by USFDA, EDQM and TGA. Apart from this, we have obtained US DMF, EU DMF / CEP, WHO GMP (local) certificate and Written Confirmation (WC), issued by concerned International and National level Regulatory Authorities for facilitating our customers to register their product in their respective Regulatory markets.

To fill the gap, we have developed the indigenous business. Many of customers, Overseas and Indian, have approved the quality of our Aspirin for meeting their standards, and have initiated their validation process.

To address the much larger pool of generic FDF manufacturers as well as to make use of the current anti-Chinese sentiment we are trying to be competitive by utilising the expanded capacity of our Aspirin Plant of 2,000 MT / annum.

Also, we have started development of Aspirin Starch Granules to meet the global demand, as we have been getting enquiries for this grade from our existing as well as prospective customers.

In the coming years, the focus would be on to widen our Overseas and Indigenous client base.

POWER:

Your Company operates Chlor Alkali Plants which are Power Intensive with Power constituting a major input cost. Therefore, it is essential for your Company to ensure the availability of quantity and quality of Power to be self-sufficient in production and remain competitive. Keeping this in view, your Company established a 33 MW Captive Generation Thermal Plant at Saggonda. This is in addition to Solar Power Plant in operation at Kovvur. These two Plants will ensure adequate Power for Chemical Plants. Apart from this, the Company as a Shareholder avails Power from Andhra Pradesh Gas Power Corporation Limited (APGPCL), a Gas based Power Generation Company. The Power availed from this source is cheaper compared to State Electricity Board Power. As and when required, the Company also opts to avail Open Access Power in order to ensure that the Power is obtained at an economical rate. This would facilitate in augmenting the Power requirements of Chemical Plants.

INTERNAL CONTROL SYSTEM

Your Company regularly reviews of the financial and operating controls of the various Units. The Internal Control System of your Company is commensurate with its size and nature of business.

As per the provisions of the Companies Act, 2013 the Statutory Auditors have annexed a Report on Internal Control System to the Independent Auditors Report pertaining to Financial Year 2020-21.

RESEARCH & DEVELOPMENT (R&D)**1. Specific areas in which R&D carried out by the company:**

Your company has focused on development of new processes, improvement of existing processes in the plants for obtaining better quality and yield of products. The company is continuously working on technology up-gradation in Sugar Manufacturing process, Development of new analytical methods for analyzing samples at various stages in the existing plants, Development of processes and controls to reduce and Re-cycle the effluents towards improvement of the Environment. Introduce modern methods in Sugarcane farming, harvesting and Development of Pest resistant and high yield Sugar Cane Varieties.

2. Benefits derived as a result of above Aspirin and R&D:

The R&D activities of your company have helped in improvement of the Quality of the existing products thus helping in meeting the market requirement. Implementation of recovery and reuse of effluents helped in considerable reduction of pollution and saving of valuable raw material. Development of New Analytical Techniques helped in carrying out studies of impurity profile at various stages of the existing process and helped to have better control on safe operation of the process. Multiple varieties of Sugar Cane developed at our Aspirin and R&D farm are released to farmers during this year.

3. Future plan of Action:

Your Company will maintain constant thrust on Development of New Products, New Processes and Improvement of the existing process by implementation of Newer Technologies to obtain better quality products with optimized yields. The existing capabilities of Aspirin and R&D will be utilized, to develop processes for minimizing the generation of effluents by recovering and recycling. Your company will continue its efforts towards development of High yield Sugar Cane varieties and Mechanization of Sugar Cane farming and harvesting.

TECHNOLOGY ABSORPTION, ADAPTATION AND INNOVATION:**1. Efforts in brief, made towards technology absorption, adaptation and Innovation**

- a) A new process was developed in Salicylic Acid manufacturing that resulted in improved quality and significant reduction in the impurities.
- b) Improvements were made in Compaction and Granulation of Aspirin powder and Aspirin-Starch.
- c) A new Multi-Product (Pharma Intermediates and APIs) facility will be developed by modifying facilities of Acetic Acid unit which is closed.
- d) A process for destruction of peroxide in the residue of HTPB reactor was successfully implemented in the plant.
- e) Pilot plant studies on Bio Degradation of UH-25, Mono Methyl Hydrazine were successfully completed and full scale plant is being constructed.
- f) Effluent minimization work on UH-25 / MMH / HTPB plants is continuing. This year a reduction of 45% of liquid effluents from these plants has been achieved.
- g) Development of New Sugarcane varieties suited for The Andhra sugars zones: Testing of Cane Lines under different phases is underway.
- h) Biological Management of Sugarcane Pest & Diseases: It is mainly to assess the damage status of Root Grub in the field and implementation of control measures both curative and preventive for possible spread of the pest and to gain confidence of the farmers.
- i) Sugarcane Farming Mechanization: Looking at different steps in mechanizing sugarcane farming, we started designing and development of Implements for land preparation followed by laser leveling, bed forming, planting, irrigation, weed control, harvesting and finally cane transport.
- j) Sugarcane harvester design and development: Under R & D Program Design and Development of Sugarcane Harvester was taken up due to shortage of harvesting labour to harvest the cane, The object is

The Andhra Sugars Limited

to Design and Build a compact cane harvester suitable for Indian Farm conditions with minimum cane loss and giving cane cleaner than hand cut cane.

- k) Lamella Juice clarifier at a Cane Sugar Plant: The object of the Lamella Juice Clarifier is to bring down the Juice retention time to 7 minutes from 37 minutes without compromising juice quality.
 - l) True Seed Pan: The object of the True Seed Pan is to make better Quality Seed for B & C massecuites and for good control of crystallization process to minimize sugar losses, minimize conglomeration and to improve sugar quality.
2. Benefits derived as a result of above efforts e.g. product improvement; cost reduction, product development, import substitution etc.:
- a) The newly developed process for Salicylic Acid (SA) manufacturing will result in higher purity that meets USP/EP specifications, eliminates process redundancies, recovery of more Pure to Technical Grade Salicylic Acid, reduced process time and higher yields and recoveries.
 - b) The Aspirin powder and Aspirin-Starch compaction and granulation capabilities are enhanced to meet commercial requirements.
 - c) Implement a Drug Intermediates/API batch manufacturing in a newly built Multipurpose Batch Plant.
 - d) The new process for destruction of peroxide in the residue of HTPB reactor eliminates the possibility of decomposition of peroxide and improves the safety of the process.
 - e) The commercial scale Bio Degradation plant will facilitate improved recycle of treated effluents from UH-25 / MMH / HTPB plants.
 - f) Liquid Waste minimization (up to 45%) contributes to conservation of water and marginal improvement in process.
 - g) Development of New Sugarcane varieties suited for The Andhra sugars zones: 2 lines have been provided to farmers. One more line multiplied and distributed to cane growers for on farm trials. Other pipeline varieties are under evaluation for further testing at our R & D farms.
 - h) Sugarcane harvester design and development: A Proto Type Sugarcane Harvester was built at our Workshop and Tested at our Farms. The machine productivity and cane cleaning efficiency was found to be good with cane loss much lower than with other Harvesters now available in our Country.
 - i) Lamella Juice clarifier at a Cane Sugar Plant: Low retention time not only reduced inversion loss, but also reduced heat loss in the clarifiers, ultimately creating a more energy efficient process. Under R & D Program Lamella Juice Clarifier was manufactured, installed and trails were conducted during the 2019-2020 crushing season at Sugar Unit-II. Fine tuning trails were continued during the 2020-2021 crushing season. Results were encouraging and promising.
 - j) Under R & D Programme True Seed Pan of 30 MT capacity was Designed, Manufactured and Erected at Sugar Unit-II, Taduvai. This equipment was commissioned during 2020-2021 crushing season. Pan Boiling was fast and vigorous. Grain was uniform and free from joints. Results were encouraging.
3. In case of imported technology (Imported during the last five years reckoned from the beginning of the financial year), following Information may be furnished:

<ul style="list-style-type: none"> a) Technology imported b) Year of import c) Has technology been fully absorbed d) If not fully absorbed, areas where this has not been taken place, reasons there of. 	<p>NIL</p>

BUSINESS RESPONSIBILITY REPORT

The Andhra Sugars Limited ("the Company") is pleased to present this Business Responsibility Report for the Financial Year (F.Y.) 2020-21 in accordance with sub-regulation (2) of Regulation-34 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Circular No.CIR/CFD/CMD/10/2015 dated November 4, 2015, issued by the Securities and Exchange Board of India (SEBI), to describe the initiatives taken by the Company from an environmental, social and governance perspective.

This Business Responsibility Statement encompassing Nine (9) Principles is viewed by the Company as of paramount importance in the context of ensuring Value Addition to all Stakeholders namely Shareholders, Customers, Vendors, Employees, Fixed Deposit Holders and others associated with the Company.

ABOUT US:

The Andhra Sugars Limited came into existence at Tanuku at a time when there was no Electricity. With the help of a Generator a Workshop was established and a small Sugar Unit of 500 M.T. was set up which became operational in the early 1950s. This Venture has blossomed over the years into a Multi-Product Conglomerate which largely helped transforming the very face of Tanuku. Beginning with the Fertiliser, Superphosphate, which was at that time required for the farmers of that Area, the Chemicals & Fertilisers Division at Kovvur came into operation and developed a Product Range there that was largely responsible for the Growth and Development of the now existing Pharmaceutical Hub at Hyderabad, beginning from the yester years of Indian Drugs and Pharmaceuticals Limited (IDPL). Recognising the need to go in for expansion of capacity of Caustic Soda, the Company established a Chemical Complex at Saggonda in West Godavari. The Plant at this Complex is highly energy efficient based on the latest technology of Membranecell obtained from recognised International Supplier.

Over the years from the By-product Molasses of the Sugar Industry, Industrial Alcohol and its Allied Products came out of Tanuku location, which today encompasses an US FDA approved Aspirin Unit and also the prestigious Liquid and Solid Propellants for the Space Programme of our Country which has put Tanuku on to the World Map.

Added were other Divisions at Taduvai and Bhimadole to Sugar Production and the Cotton & Oil Products Division at Perecherla, Guntur. Also promoted were the Companies JOCIL Limited and The Andhra Petrochemicals Limited (APL) at Dokiparru, Guntur and Visakhapatnam respectively making the foray into Fatty Acids & Toilet Soaps, and the only Unit in India making Oxo-Alcohols respectively.

The Company's major operations are power intensive. Therefore recognising the need to be self-sufficient in meeting power requirement, the Company made entry into Power Sector by putting up Solar, Wind and Coal Based Power Plants.

CORPORATE SOCIAL RESPONSIBILITY:

Since its inception in 1947, the Company is dedicated to the betterment of the Rural Masses in the areas of its operations. Way back in the 1950s, well before there was the thought of "Corporate Social Responsibility", the Company took up these activities. Realising that Health and Education are vital for the improvement of the quality of human life, your Company helped build a Medical College at Kakinada to produce the Doctors needed for rural health care and followed this up with helping in setting up a modern Hospital at Tanuku providing Cardiac, Ophthalmic, Orthopedic, Obstetrics, Gynaecological and Dental Care. Your Company helped to provide education by helping in setting up two Schools and a Polytechnic and helped in setting up a modern Library and a Cultural Centre with a 1000 seat Indoor Auditorium and an Outdoor Auditorium. The details of CSR Expenditure for the Year 2020-21 can be seen in the Annual Report.

Raju, Independent Director as members of the Committee. This Committee has formulated a CSR Policy which has been approved by the Board. This Policy envisages CSR Activities to be taken up, amount of expenditure to be incurred and monitoring of CSR Activities from time to time.

This Policy aims to achieve the CSR objectives by undertaking one or more of the activities to be in alignment with Schedule VII of the Companies Act, 2013 either by the Company on its own or through any Trust / Society or any other recognized Agency.

As per the provisions of Section 135(5) of the Companies Act, 2013, company should spend in every Financial Year at least 2% of the average net profits of the company made during the three immediately preceding Financial Years. In pursuance of its Corporate Social Responsibility Policy, the Company gives preference to the local area and areas around, where it operates or any other permissible location for spending the amount earmarked for Corporate Social Responsibility activities.

Accordingly, for achieving its CSR objectives through implementation of meaningful and sustainable CSR programmes, your Company allocates at least 2% of its average Net Profits calculated as per Section 198 of the Companies Act, 2013, as its Annual CSR Budget in each Financial Year.

From the Annual CSR Budget allocation, a provision is made towards the expenditure to be incurred on identified areas, for undertaking CSR activities on a year to year basis.

Allocation of the Annual Budget for CSR activities in any given year would be as per the provisions of the Companies Act, 2013 and Rules made thereunder as amended from time to time.

As required by Rule 8 of the Companies (CSR Policy) Rules, 2013, a Report on CSR Activities and the amount of expenditure incurred is annexured to this Report.

Company started its advent with the manufacture of Sugar at a place Tanuku, then a mofussil locality in the State of Andhra Pradesh. Two more Sugar Units were added, one at Taduvai and another one at Bhimadole in West

The Andhra Sugars Limited

Godavari District of Andhra Pradesh. Due to unviability of operations, the Sugar Plant at Tanuku has been shut down. Ever since the first Crushing Operations in the Year 1950 Sugarcane farming community has been very dear to the Company. Farmers also place lot of confidence in the Company due to high ethical standard set and strictly adhering to the Norms of Statutory governing supply. Payments are made within the statute due dates. Interaction with the Farmers are made with personal touch. All efforts are being made to make farmers realise the benefits of Mechanisation through demonstration in the farmers' fields. Company is also maintaining Agricultrual Research Farm to improve the quality of Cane Seed to improve yield per Acre.

PRINCIPLE - 3

BUSINESSES SHOULD PROMOTE THE WELL-BEING OF ALL EMPLOYEES:

Management firmly believes and considers Employees of the Company as HUMAN ASSETS. One of our Founders Dr. Mullapudi Harischandra Prasad, the then Chairman & Managing Director always used to address the employees at our internal gathering as "Family Members". Employee relationship has always been amicable. We report with pride that since incorporation in the Year 1947 till date, there has been no instances of any Strike or Lockout. This is testimony to the fact about the fruitful bondage between the Employer and Employees. Constant and concerted effort is made to create an atmosphere of Employee Development from time to time taking into account the age and experience of an Employee. In case a need arises, outside Consultants are called to impart in house training to the Employees to enable them to acquaint themselves with latest developments concerning their area of operations. In certain cases, Employees are sponsored to attend Seminars and get Outside Training with a view to help to develop their skill and be better equipped to meet their organisational commitments. Equally important for the Company is Health and Safety of the Employees, Staff and Workers have regular health check-up at Hospital supported by our Company, located in the vicinity of Plants located at Tanuku. In respect of Safety of Employees, utmost care is taken to ensure that all required safety gadgetss are provided to Workers on Plant. Safety trainings are conducted periodically to emphasise the importance of safety awareness at work place. As one of the important aspects of HR Policy, the Company does not discriminate against any Employee on the basis of Caste, Creed, Colour or gender etc. For Company, Merit and Contribution are the only criteria to judge the upgradation of an Employee. Management of the Company would like to place on record the sincere efforts and unstinted support of Employees at all levels for their valueable efforts put in which has been instrumental in making Company scale greater heights.

PRINCIPLE - 4

BUSINESSES SHOULD RESPECT THE INTERESTS OF, AND BE RESPONSIVE, TOWARDS ALL STAKEHOLDERS, ESPECIALLY THOSE WHO ARE DISADVANTAGED, VULNERABLE AND MARGINALIZED.

Company values every Stakeholder and there is a reciprocal relationship valuing and respecting each other's sentiments. Considering the fact that Company started its Business Venture with Sugar Business. Company identifies Farming Community as a Key Stakeholder. In the present difficult period, in which the Sugar Industry is passing through the Sugarcane Farming Community is unfavourably placed. Our Company's Focus is on to encourage the farmers to be in Sugarcane farming. To this end, we have been paying Cane Price more than the Fair Remuneration Price fixed by the Central Government. Apart from this, we provide Incentives in kind to ensure that the Sugarcane Farming Community comes out with best quality of Sugarcane. In addition, with personal interaction, farmers are given demonstration of benefits of Mechanisation in their fields to overcome labour problem besides rendering Advisory Services as per their requirement. In general, the needs and concerns of every Stakeholder, be it Shareholder, Fixed Deposit holder, farmer, customer, employee and any one connected with the Company in any manner whatsoever, are viewed in proper perspective to come out with solutions to the mutual satisfaction.

PRINCIPLE - 5

BUSINESSES SHOULD RESPECT AND PROMOTE HUMAN RIGHTS :

Company strongly believes that respecting Human Rights is Corporate's sacred duty. It has always been the earnest endeavour of the Company to treat people with dignity in the course of dealings. Company respects and promotes Human Rights and in this context, Company sincerely endeavours to give prime importance to aspects like diversity, anti-discrimination, equal opportunities, compliance with regulatory matters with a highest integrity thus contributing to promotion of Human Rights. Stern disciplinary action is taken against the employee who disregards the Human Rights in course of his employment.

PRINCIPLE - 6

BUSINESSES SHOULD RESPECT, PROTECT AND MAKE EFFORTS TO RESTORE THE ENVIRONMENT :

The Policy covers the Company only. The company has taken up a few initiatives to address global environmental issues as outlined below :

- 1 Use of Solar Energy, wherever feasible (A 2.50 MW Solar Power Plant has been installed at Kovvur complex and solar water heating system for Boiler feed water at Tanuku complex).
- 1 Replacement of R-22 refrigerant gas with ecofriendly refrigerant gases (like R-32 Refrigerant) in Air conditioning refrigeration systems.
- 1 Use of Wind Energy, wherever feasible (We installed wind mills with a total capacity of 16.6MW in the states of Andhra Pradesh and Tamilnadu).

Potential environmental risks in our operations are identified and appropriate measures are taken to mitigate the risks with a view to minimize the environmental impact. Presently there is no Project related to Clean Development Mechanism.

The Company has taken up some initiatives on clean technologies, energy efficiency and renewable energy which include:

- 1 Absorption of ecofriendly technologies like Membrane Cell Technology for the production of Caustic soda/ Chlorine, in place of Mercury cell electrolyzers.

The Andhra Sugars Limited

- 1 Process technology improvements in the process Plants with respect to reduction of waste generation, adopting 'Reduce, Reuse and Recycle' concepts (aimed at waste minimization and conservation of process water & cooling water) wherever possible and adopting the Zero Liquid Discharge systems as per the guidelines of Pollution Control Boards.
- 1 Replacement of old & less energy efficient electric motors with increased energy efficient electric motors as per IE-2 class and IE-3 class.
- 1 Use of Biogas (Non-conventional Energy) generated from Distillery Effluents in place of Coal for Steam generation.

Emissions / waste generated by the Company is within the permissible limits given by CPCB/ SPCB and there are no Show-Cause Notices received from CPCB / SPCB.

PRINCIPLE - 7

BUSINESSES, WHEN ENGAGED IN INFLUENCING PUBLIC AND REGULATORY POLICY, SHOULD DO SO IN A RESPONSIBLE MANNER:

For any Policy advocacy Company recognises the importance of being extremely responsible & highly ethical while taking the matters with relevant Government bodies. The Company is Member of Federation of Andhra Pradesh Chamber of Commerce and Industry Confederation of Indian Industry (CII). It is also Member of ISMA, SISMA, AMAI. As and when it is felt necessary, the Company makes representation to these relevant bodies to seek solutions to the problems faced by various sectors of business thus ensuring that the business operations are in right direction.

PRINCIPLE - 8

BUSINESSES SHOULD SUPPORT INCLUSIVE GROWTH AND EQUITABLE DEVELOPMENT:

Company was incorporated in the Year 1947 with its 1st Sugar Factory at Tanuku, then a Mofussil area. Since then, Company strongly believed that benefits of Industrialisation should percolate to the community around. In this regard, our Commitment to Rural Development began way back in the early 1950. We founded various Educational Institutions and Medical Institutions of Excellence. To this end:

- 1 Company helped to set up a Medical College in Kakinada in 1958 through the portals of which Doctors of Distinction passed out.
- 1 In view of Industrialisation in the Area and the need for qualified technical staff, Company helped to set up a well-equipped Polytechnic in 1958 with full-fledged labs including Operating Models of Aircraft Engines along with hostels & playground facilities.
- 1 In view of the need for providing the Rural Population with the much needed modern and specialized Medical Care that was available only in distant cities, we helped set up a Medical Centre at Tanuku in 1980. Subsequently, a Cardiovascular Centre and Eye Centre (first affiliate of LVPEI) were added to widen the Health Care base providing much needed Cardiac and Eye Care for the Rural Population.
- 1 To ensure that local lads do not lag behind in their education, we support High Schools at Tanuku and Dommeru, a small Village in West Godavari District, Andhra Pradesh.
- 1 Set up a modern Library and Cultural Center at Tanuku with a 850 Seater Air-conditioned Auditorium to meet the cultural needs of the Community.
- 1 With concerted efforts, we could bring about social transformation of Rural Areas in our Region and economic prosperity, besides providing large-scale employment to the people of our Region and thereby helping in improving the standard of living. To this end, Company has been providing Direct Employment to the people in and around the local area and has also been supporting Sugarcane farmers by providing them field advisory services to improve the quality of Sugarcane crop.
- 1 Recognising the importance of providing protected drinking water to the Rural Population, Company supported Drinking Water Schemes of RVWS Programme of Andhra Pradesh Government. In the past, Chlorine was supplied free of cost to Tirumala Tirupati Devasthanam and Sree Satya Sai Organisations for Drinking Water Programmes in Rural Areas.

- 1 To facilitate better communication and more efficient agricultural operations not only for the farmers but also for the rural public at large Black-top Roads and Gravel Roads were developed under Sugarcane Development Schemes.

PRINCIPLE - 9

BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CUSTOMERS AND CONSUMERS IN A RESPONSIBLE MANNER:

The Company highly values the Customers' loyalty. To achieve this, Company focus has always been to ensure that the Company is committed to give its Customers Best Product, Best Price and committed Delivery Schedule. Marketing Personnel work closely with the Customers and closely interact with them to understand their changing needs in respect of various attributes of the products. R & D is committed to look into and work upon the change and successfully implement the same. The products go through tight Quality Control Procedure before entering the Customers' Godown. Products are packed in the required Packing Containers and bear Labels as per the Regulatory Mandate. The Company never indulge in any kind of misleading Advertisements. During the preceding Five Financial Years, one case is filed regarding anti-competitive trade practice. MRTP Commission on Appeal filed has granted a Stay. Final Judgment is yet to be pronounced.

2. Business Responsibility Policies:

Independent Auditor's Report

To the Members of **THE ANDHRA SUGARS LIMITED, TANUKU**

Report on the Standalone Financial Statements

Opinion

We have audited the accompanying financial statements of THE ANDHRA SUGARS LIMITED ("the company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us the accompanying financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standard on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditors responsibility for the Audit of Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of financial statements under the provisions of the Act and the rules made there under, and we have fulfilled our ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key Audit matters are those matters that in our professional judgment were of most significance in our audit of the Standalone financial statements of the current period. These Matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the Key Audit Matter

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement therein; we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial

The Andhra Sugars Limited

controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1 Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 1 Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- 1 Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 1 Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 1 Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

Annexure - B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the financial statements of The Andhra Sugars Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the company is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal financial controls over financial reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls with reference to the financial statements were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls with reference to the financial statements issued by the Institute of Chartered Accountants of India.

1. CORPORATE INFORMATION

Brief description of the Company

The Andhra Sugars Limited ("the company") is a leading manufacturers' of Sugar, Industrial Alcohol, & Chlor Alkali Products, Aspirin, Sulphuric Acid, Liquid & Solid Propellants, and also generating power through renewable and non-renewable resources.

The company is a public limited company incorporated and domiciled in India and has its registered office at Tanuku, Andhra Pradesh, India. The securities of the company were listed in National Stock Exchange of India Limited.

1.1 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies mentioned herein are relating to the standalone financial statements of the Company.

a) Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and guidelines issued by the Securities and Exchange Board of India (SEBI).

The financial statements have been prepared on the historical cost convention under accrual basis of accounting except for certain financial assets and liabilities (as per the accounting policy below), which have been measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

b) Use of estimates

The preparation of financial statements requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and notes thereto. The management believes that these estimates and assumptions are reasonable and prudent. However, actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future period.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in the relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

c) Significant Estimates and judgements

The areas involving critical estimates or judgments are:

- i) Estimation of fair value of unlisted securities-
- ii) Defined benefit obligation -
- iii) Estimation of useful life of Property, Plant and Equipment -
- iv) Estimation and evaluation of provisions and contingencies relating to tax litigations.
- v) Estimation of uncertainties relating to the global health pandemic from COVID-19

The COVID -19 pandemic is an evolving human tragedy declared as global pandemic by the World Health Organization with adverse impact on economy and business. In light of these circumstances, the company has considered the possible effects, if any, that may result from Covid-19 on the carrying amounts of financial assets, inventory, receivables, advances, etc., as well as liabilities accrued. Based on the assessment of current indicators of future economic conditions, the management does not envisage any significant impact on its financial results and its financial position as on 31st March 2021. In developing the assumptions and estimates relating to the uncertainties as the Balance sheet date in relation to the recoverable amounts of these assets, the management has considered the global economic conditions prevailing as at the date of approval of these financial results and has used the internal and external sources of information to the extent determined by it. The actual outcome of these assumptions and estimates may vary in future due to the impact of the pandemic.

d) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and net of returns, trade allowances rebates and amounts collected on behalf of third parties. It includes Excise Duty but excludes Value Added Tax, Sales Tax and Goods and Services Tax.

Sale of products:

Effective April 1, 2018, Company adopted Ind AS 115, "Revenue from contracts with customers". Revenue from sale of products is recognized, when the performance obligation is satisfied, by transferring promised goods to the customer. An asset is transferred when (or as) the customer obtains control to the Asset, as per the terms of contract and it is probable that the economic benefits associated with the transaction will flow to the Company.

Internal Transfers from one unit to the other unit are recognized at Market value of the Product/Service at the Time of Transfer.

Interest Income:

Interest income from debt instruments is recognized using the effective interest rate method and is accrued on a time basis. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying value of a financial asset. While calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

Dividends:

Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be reliably measured.

e) Property, Plant and Equipment

Freehold Land is carried at historical cost. All other items of Property Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation / amortization and impairment, if any. Cost includes purchase price, taxes and duties, labour cost and directly attributable overheads incurred upto the date the asset is ready for its intended use. However, cost excludes Excise Duty, Value Added Tax and Service Tax, to the extent credit of the duty or tax is availed of.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is de-recognized when replaced. All other repairs and maintenance are charged to Profit or Loss during the reporting period in which they are incurred.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

Depreciation and amortization

- i) Depreciation on tangible fixed assets is charged over the estimated useful life of the asset,
- On part of buildings, Main plant and machinery and Electrical Installations of Caustic Soda division, Aspirin, Wind Power at Ramagiri, Wind Power Tamilnadu, Power Generation and Sugar units at Taduvai and Bhimadole and all buildings, Plant and Machinery, Electrical Installations, Weigh Bridges and Scales and Workshop Equipment of Cotton & Oil Products unit, Sulphuric Acid unit at Saggonda Coal based Power Plant at Saggonda and Solar Power Plant at Kovvur under Straight Line Method.
 - On the remaining assets of the above units and all assets of other units, under Written Down value method.
 - In respect of Inter unit Transfer of Assets, Depreciation is computed on the same basis as in the Transferor unit.

The Andhra Sugars Limited

- In respect of the following assets, the useful life has been estimated by the technical personnel which is different from the life given under Part C of Schedule II of the Companies Act, 2013 as detailed here under:
 - ◆ Boilers, Chlorine storage Tank, MS Storage Tank, HCL Plant, DM Water plant, Diesel Generator set, ET Plant Pond, Turbines, Rectifiers, Cell Plant, Shell, Evaporation Plant, Fusion Plant, Sulphur Melting Station, Rotary Ball Mill, Bagassee Handling System, Centrifugal Machinery - 20 years.
 - ◆ MS Pipe lines, Refrigeration Plant, Distributed Control System, ET Plant, Brass Tubes, Bearings, Process Plant, Sodium Sulphate Recovery Plant - 15 years.
 - ◆ Cooling Towers, Instrumentation, Air Compressors, Chains - 10 years
 - ◆ Solar Plant - 25 years.
- ii) Residual values and useful lives are reviewed, and adjusted, if appropriate, for each reporting period.
- iii) Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each Balance Sheet date is classified as Capital advances under other Non-current assets and the cost of assets not put to use before such date are disclosed under Capital Work-in-Progress.
- iv) Assets to be disposed off are reported at the lower of carrying value or fair value less cost to sell.

f) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. In respect of approved Research and Development programme, expenditure of capital nature is included in the fixed assets and other expenditure is charged off to revenue in the year in which such expenditure is incurred.

g) Impairment

i. Financial Assets:

The company recognizes loss allowances using Expected Credit Loss (ECL) model for the financial assets which are not fair valued through Profit and Loss. Loss allowance for trade receivables are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial assets:

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are compared at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period

h) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). i.e in Indian rupee (INR) and all values are rounded off to nearest lakhs except where otherwise indicated.

(ii) Transactions and balances

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.

- i) Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

- ii) Non-monetary items denominated in foreign currency such as investments, fixed assets, etc., are valued at the exchange rate prevailing on the date of transaction.
- iii) Exchange differences arising on settlement of transactions and translation of monetary items are recognized as income or expense in the year in which they arise.

i) Investment in Subsidiaries and Associates:

Investments in subsidiaries are measured at cost as per Ind AS 27 - Separate Financial statements.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the company's share of the net fair value of the identifiable assets and liabilities of the investee is recognized as goodwill, which is included within the carrying amount of the investment and is not tested for impairment individually. An excess of the company's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment is recognized directly in equity as capital reserve in the period in which the investment is acquired.

j) Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and cost necessary to make the sale.

- i) Cost of raw materials, components, stores, spares and work-in-process are valued at cost, determined on a first-in-first-out basis except stores & spares which are valued at weighted average cost.
- ii) Materials and supplies held for use in production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost. Slow and non-moving material, obsolesces, defective inventories are duly provided for.
- iii) By-products and scrap are valued at net realizable value and it is reduced from cost of the main product.

k) Employee benefits

- i) Short term obligations:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

- ii) Other long-term employee benefit:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

- iii) Post-employment obligation:

The Company operates the following post-employment schemes:

- a) Defined benefit plans such as gratuity for its eligible employees,
- b) Defined contribution plans such as provident fund and
- c) Superannuation

The Andhra Sugars Limited

Gratuity obligation:

The liability or asset recognized in the balance sheet in respect of defined benefit pension and gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the Government Bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (net-off deferred tax). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Provident Fund and Employees' state Insurance Scheme:

Eligible employees of The Andhra Sugars Limited receive benefits from a provident fund and Employees' State Insurance scheme which is a defined benefit plan. Both the eligible employee and the company make monthly contributions to the Provident Fund and Employees' State Insurance equal to a specified percentage of the covered employee's salary.

Superannuation:

Certain employees of The Andhra Sugars Limited are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

I) Taxes on income:

Tax expense comprises of current and deferred taxes. The income tax expense(income) for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax is the amount of income taxes payable in respect of the taxable profit (tax loss) for a period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Where the Company's entitled to claim special tax deductions for investments in qualifying assets or in relation to qualifying expenditure (the Research and Development or other investment allowances), the Company accounts for such allowances as tax credits, which means that the allowance reduce income tax payable and current tax expense. A deferred tax asset is recognized for unclaimed tax credits that are carried forward as deferred tax assets.

m) Government Grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Grants related to revenue items are presented as part of profit or loss under general heading such as other income or they are deducted in reporting the related expenses.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the company with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

n) Provisions and contingent liabilities

i) Provision:

A provision is recorded when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated. The estimated liability for product warranties is recorded when products are sold based on technical evaluation.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Provisions are discounted when time value of money is material. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expenses.

ii) Contingent liabilities:

Wherever there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

iii) Contingent assets:

Wherever there is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent asset is disclosed when the inflow of economic benefit is probable.

o) Segment reporting

Operating segments are defined as components of our entity for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance, the company's chief operating decision maker is the Chairman and Managing Director.

The Andhra Sugars Limited

The company has identified business segments (industry practice) as reportable segments. The business segments comprise 1) Sugars, 2) Chlor Alkali, 3) Power Generation, 4) Industrial Chemicals and 5) Others such as bulk drug, UH 25 and MMH, Liquid Hydrogen, HTPB.

Revenue and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly attributable to each reporting segment have been allocated on the basis of associated revenue of the segment. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable. Property, Plant and equipment that are used interchangeably among segments are not allocated to reportable segments.

p) Leases

The Company has adopted Ind AS 116-Leases effective from 1st April, 2019, using the modified retrospective method. The company has applied the standard to its lease with the cumulative impact recognised on the date of initial application (1st April, 2019). Accordingly, previous period information has not been restated.

The Company's lease asset consists of lease for Building. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

q) Cash and Cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions/banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

r) Cash flow statement:

Cash flows are reported using the indirect method, whereby the profit for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

s) Financial instruments

Financial assets and financial liabilities are recognized when company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

t) Financial assets

All regular way purchases or sales of financial assets are recognized and de-recognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets

For the impairment policy on financial assets - refer Para No. g (i).

1) Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortized cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognized in profit or loss for FVTOCI debt instruments. For the purposes of recognizing foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortized cost. Thus, the exchange differences on the amortized cost are recognized in profit or loss and other changes in the fair value of FVTOCI financial assets are recognized in other comprehensive income and accumulated under the heading of 'investment Revaluation reserve' through other comprehensive income'. When the investment is disposed of the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value through Profit and loss.

2) Effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected

life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognized in profit or loss and is included in the "Other income" line item.

3) Investments in equity instruments at FVTOCI

On initial recognition, the company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the 'investment Revaluation Reserve' through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the company manages together and has a recent actual pattern of short-term profit-making; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

The company has equity investments which are not held for trading. The company has elected the FVTOCI irrevocable option for both of these investments. Fair value is determined in the manner described in Para No. aa.

Dividends on these investments in equity instruments are recognized in profit or loss when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognized in profit or loss are included in the 'Other income' line item.

4) Financial assets at fair value through profit or Loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading (see note T.3 above).

Debt instruments that do not meet the amortized cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortized cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortized cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases. The company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognized when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

5) De-recognition of financial assets

The Company de-recognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of

ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

6) Foreign exchange gain and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortized cost and FVTPL, the exchange differences are recognized in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognized in other comprehensive income.
- For the purposes of recognizing foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortized cost. Thus, the exchange differences on the amortized cost are recognized in profit or loss and other changes in the fair value of FVTOCI financial assets are recognized in other comprehensive income.

Financial liabilities and equity instrument

1) Classification as debt or equity

Debt and equity instruments issued by a company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument

2) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company entity are recognized at the proceeds received, net of direct issue costs.

Re-purchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

3) Financial liabilities

All financial liabilities are subsequently measured at amortized cost using the effective interest method or at FVTPL.

(i) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognized by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognized by the Company as an acquirer in a business combination to which Ind AS 103 applies, maybe designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a company of financial assets or financial liabilities or both, which is

The Andhra Sugars Limited

managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the company is being provided internally on that basis; or

- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognized in profit or loss. The remaining amount of change in the fair value of liability is always recognized in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognized in profit or loss.

Fair value is determined in the manner described in Para - aa.

(ii) Financial liabilities subsequently measured at amortized cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortized cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortized cost are determined based on the effective interest method. Interest expense that is not capitalized as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Company de-recognizes financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability de-recognized and the consideration paid and payable is recognized in profit or loss.

Hedge Accounting

Derivatives are initially recognized at fair value on the date when a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Company designates certain derivatives as either:

- hedges of the fair value of recognized assets or liabilities or a firm commitment (fair value hedges), or
- hedges of a particular risk associated with the cash flows of recognized assets and liabilities and highly probable forecast transactions (cash flow hedges).

The Company documents at the inception of the hedging transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Company also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will

continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

The fair values of various derivative financial instruments used for hedging purposes are disclosed. Movements in the hedging reserve in shareholders' equity are disclosed. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss, within other gains/ (losses).

When forward contracts are used to hedge forecast transactions, the company generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to the effective portion of the change in the spot component of the forward contracts are recognized in other comprehensive income in cash flow hedging reserve within equity. In some cases, the entity may designate the full change in fair value of the forward contract (including forward points) as the hedging instrument. In such cases, the gains and losses relating to the effective portion of the change in fair value of the entire forward contract are recognized in the cash flow hedging reserve within equity.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for example, when the forecast sale that is hedged takes place).

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss within other gains/ (losses).

u) Borrowings

Borrowing cost incurred in connection with the funds borrowed for acquisition/erection of assets that necessarily take substantial period of time to get ready for intended use, are capitalized as part of such assets. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowings costs. All other borrowing costs are charged to revenue.

v) Current and Non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. In respect of other assets, it is treated as current when it is:

- expected to be realized or intended to be sold or consumed in the normal operating cycle
- held primarily for the purpose of trading
- expected to be realized within twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- it is expected to be settled in the normal operating cycle
- it is held primarily for the purpose of trading
- it is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Andhra Sugars Limited

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

w) Dividend:

Final dividends on shares are recorded as liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's board of directors.

x) Accounting for Derivatives:

The company uses derivative instruments to hedge its exposure to movements in foreign exchange rates, interest rates and currency risks. The objective of these derivative instruments is only to reduce the risk or cost to the company and is not intended for trading or speculation.

y) Earnings per share:

The company's Basic EPS is calculated by dividing profit or loss from continuing operations attributable to ordinary equity holders by the weighted average number of ordinary shares outstanding during the period as per IND AS-33, Earnings per Share.

The diluted EPS of an entity is calculated on the same basis as basic EPS, after adjusting for the effects of dilutive potential ordinary shares unless the effect of the potential dilutive equity shares is anti-dilutive.

z) Investment Property:

Investment properties are measured initially at cost, including transactions costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long term construction projects if the recognition criteria are met. When significant parts of the property are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

The company depreciates building component of investment property over 30 years from the date of original purchase.

Though the company measures investment property using cost based measurement the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

aa) Fair value measurement:

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value resulting general approximation of value, and such value may never actually be realized.

ab) Expenditure on approved Research and Development Programme:

In respect of approved Research and Development Programme expenditure of capital nature is included in Property, Plant and Equipment and other expenditure is charged off to revenue in the year in which such expenditure is incurred.

ac) Non-current assets held for sale:

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (and disposal group) classified as held for sale are measured at the lower of their carrying amount and fair value less cost to sell.

A The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual fund units that have a quoted price. The fair value of all equity instruments which are traded on Stock Exchanges is valued using the closing price as at the reporting period. The mutual fund units are valued using the closing net asset value (NAV).

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. These instruments are collectively not material and hence disclosures regarding significant unobservable inputs used in level 3 fair values have not been made.

Risk exposure and asset-liability matching

Provision of a defined benefit scheme poses certain risks, some of which are detailed hereunder, as companies take on uncertain long term obligations to make future benefit payments.

The Andhra Sugars Limited

1) Liability risks

a) Asset-liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements.

b) Discount rate risk

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practice can have a significant impact on the defined benefit liabilities.

c) Future salary escalation and inflation risk

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz. LIC of India and other insurance companies. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

Financial Instruments

a) Management of Credit Risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primary trade receivables) and from its investing activities, including deposits with banks and other financial instruments. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified.

The company's credit risk for trade receivables is as follows (Rs. in Lakhs)

Particulars	31.03.2021	31.03.2020
Trade receivables	13,387.56	13,315.52

The movement in allowance for credit loss in respect of trade receivables during the year is as follows: (Rs. in Lakhs)

Allowance for credit loss	31.03.2021	31.03.2020
Balance at the beginning	38.58	28.43
Loss allowance recognised	(6.36)	10.15
Balance at the end	32.22	38.58

Credit risk on cash and cash equivalent is limited as the company generally transacts with banks and financial institutions with high credit ratings assigned by international and credit rating agencies.

b) Management of market risk

- i) Commercial risk
- ii) Fair value risk
- iii) Foreign exchange risk

The above risks may affect income and expenses, or the value of its financial instruments of the Company. The objective of the Management of the Company for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Company exposure to, and the Management of, these risks is explained below:

C) Management of Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its obligations associated with its financial liabilities that are settled by delivering cash or another financial asset as they fall due. The Company is expected to this risk from its operating activities and financial activities. The Company's approach to managing liability is to ensure as far as possible that it will have sufficient liquidity to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Liquidity requirements are maintained within the credit facilities established and are available to the Company to meet its obligations. The table now provides details regarding the contractual maturities of significant financial liabilities as of the reporting date.

	(c) Under the provisions of "The Levy Sugar Price Equalization Fund Act, 1976" the excess amount collected over the notified levy sale price pursuant to the interim stay granted by the Courts vests in the fund. In a writ petition No: 1534/76 filed by the Company against these provisions, the High Court of Andhra Pradesh has held that provisions of the said Act are not applicable to the excess collections made prior to 15-6-1972, against which the Union Government filed a civil appeal No: 274/79 before the Supreme Court, which is pending. While admitting the appeal, the Supreme Court granted stay of operation of Judgment of A.P. High Court in W.P.No: 1534/76 and directed the Company to furnish a Bank Guarantee for Rs.9.60 lakhs being the difference in levy Sugar price for the Sugar Season 1969-70. The Bank Guarantee was furnished on 7-12-1979 in favour of Registrar, High Court of Andhra Pradesh. Interest, if any, payable under the said Act, estimated at Rs. 64.39 lakhs (Rs 62.66 lakhs) has not been provided for in the accounts pending final legal decision in the matter. However, an amount of Rs.66.80 lakhs was appropriated during the financial year 2008-2009 by Govt India, New Delhi, against payment of buffer stock subsidy dues, which was protested by the company.

5. Amount of further interest remaining due and payable even in succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of deductible expenditure under section 23 of MSMED Act, 2006	0.00

Note: For the purpose of the above details of the status of the supplier's under the Act has been determined, to the extent of and based on information furnished by the respective parties, and has accordingly, been relied upon by the company and its auditors.

41. Consequent to the judgement given by the Hon'ble Supreme Court of India vide its order dated 29th November 2019, upholding the power of Andhra Pradesh Electricity Regulatory Commission (APERC) to determine the levy of wheeling charges, the company has received demands from Andhra Pradesh Eastern Power Distribution Company Limited (APEPDCL), for an amount of Rs. 3092.18 lakhs in respect of four service numbers situated at Kovvuru, Taduvai, Tanuku and Gutala. The company has not received any demand in respect of one service situated at Saggonda from APEPDCL, which is not ascertainable on account of various pending cases at Hon'ble High Court of Andhra Pradesh and Telangana and Hon'ble Supreme Court of India, pertaining to wheeling charges and Allocation of Surplus power generated and transmitted by Andhra Pradesh Gas Power Corporation Limited (APGPCL) to its participating industries. Considering the revised wheeling charges as determined by APERC, in service situated at Saggonda, the company has to get refund of wheeling charges.

In this regard, the company has made liability towards differential wheeling charges and on account of allocation of surplus power based on the bills raised by APEPDCL for an amount of Rs. 8177.56 lakhs. Further, the differential payments made to APGPCL were shown as advance to the extent of Rs. 3764.71 lakhs (including back up bank guarantees encashed to the extent of Rs. 520.01 lakhs by APGPCL due to invocation of bank guarantees by AP Transco., consequent to the judgement of Hon'ble Supreme Court of India on wheeling charges).

Pending disposal of cases on account of Allocation of Surplus power before Hon'ble Supreme Court of India, the liability towards wheeling charges as per APERC and energy charges payable to APEPDCL is unascertainable. Hence, the demands issued by APEPDCL need further revision and the company has contended for the demands raised by APEPDCL.

Independent Auditor's Report

To the Members of **THE ANDHRA SUGARS LIMITED, TANUKU**

Report on the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of THE ANDHRA SUGARS LIMITED ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates which comprise the Consolidated Balance Sheet as at March 31, 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the consolidated financial statements, including a summary of the significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2020, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed and based on the work done/audit report of the other auditors, we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associates with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design,

implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and its associates are also responsible for overseeing the financial reporting process of the Group and of its associates.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1 Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 1 Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- 1 Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 1 Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- 1 Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 1 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

The Andhra Sugars Ltd. - Group Consolidated Financial Statements

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We believe that the audit evidence obtained by us along with the consideration of audit report of the other auditors referred to in para (a) of the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- a) We did not audit the financial statements of three subsidiaries whose financial statements reflect total assets of Rs. 26396.71 lakhs as at March 31, 2021, total revenues of Rs. 56774.76lakhs and net cash inflows of Rs. 1908.43 Lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. The consolidated Ind AS financial statements also include the Group's share of net profit (including one associate) of Rs.2617.69 lakhs and total comprehensive income of Rs. 2746.52 lakhs for the year ended March 31, 2021, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, associates and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates is based solely on the reports of the other auditors

Our opinion on the consolidated Ind AS financial statements above, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, we report to the extent applicable, that
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

The Andhra Sugars Ltd. - Group Consolidated Financial Statements

- e) On the basis of the written representations received from the directors of the Company as on March 31, 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and associate companies incorporated in India, none of the directors of the Group companies and its associate companies incorporated in India is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the Internal Financial Controls with reference to the financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditor's reports of the Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of those companies, for reasons stated therein.
- g) With respect to the matter to be included in the Auditors' report under Section 197(16) :
- In our opinion and according to the information and explanation given to us, the remuneration paid during the current year by the Holding Company and its subsidiaries which are incorporated in India is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company and its subsidiaries which are incorporated in India, is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- (i) The consolidated financial statements disclose impact of pending litigations on the consolidated financial position of the Group - Refer Note No.46 to the consolidated financial statements.
- (ii) The group and its associates did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
- (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of The Andhra Sugars Limited of even date)

Report on the Internal Financial Controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2021, we have audited the Internal Financial Controls with reference to the financial statements of **THE ANDHRA SUGARS LIMITED** (hereinafter referred to as "Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Internal Financial Controls with reference to the financial statements of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls with reference to the financial statements (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of Internal Financial Controls with reference to the financial statements included obtaining an understanding of Internal Financial Controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls with reference to the financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to the financial statements

Because of the inherent limitations of Internal Financial Controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls with reference to the financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such Internal Financial Controls with reference to the financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to the financial statements issued by the Institute of Chartered Accountants of India.

Ind AS policies of consolidated financial statements

Brief description of the Company

The Andhra Sugars Limited ('the company') is a leading manufacturers' of Sugar, Industrial Alcohol, Caustic Soda & Chlor Alkali Products, Aspirin, Sulphuric Acid, Liquid & Solid Propellants, and also generating power through renewable and non-renewable resources.

Note 1: Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the group consisting of The Andhra Sugars Limited (the 'Company') and its subsidiaries.

(a) Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and guidelines issued by the Securities and Exchange Board of India (SEBI).

Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

1. certain financial assets and liabilities and contingent consideration that is measured at fair value;
2. assets held for sale - measured at fair value less cost to sell;
3. defined benefit plans - plan assets measured at fair value; and
4. share-based payments

(b) Principles of consolidation and equity accounting

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) Associates

Associates are all entities over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognised at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

The Andhra Sugars Ltd. - Group Consolidated Financial Statements

Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

(iv) Changes in ownership interests

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

(d) Revenue Recognition

Revenue is measured at the transaction price which is determined based on terms of contract and entity's customary practices and net of returns, trade allowances rebates and lifting charges. It includes Excise Duty (till 30.06.2017) but excludes Goods and Services Tax.

Sale of products:

Effective April 1, 2018, Company adopted Ind AS 115, "Revenue from contracts with customers". Revenue from sale of products is recognized, when the performance obligation is satisfied, by transferring promised goods to the customer. An asset is transferred when (or as) the customer obtains control to the Asset, as per the terms of contract and it is probable that the economic benefits associated with the transaction will flow to the Company.

Internal Transfers from one unit to the other unit are recognized at Market value of the Product/Service at the Time of Transfer.

Interest Income:

Interest income from debt instruments is recognized using the effective interest rate method and is accrued on a time basis. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying value of a financial asset. While calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

Dividends:

Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be reliably measured.

(e) Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

(f) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(g) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised.

A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

The Andhra Sugars Ltd. - Group Consolidated Financial Statements

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

(h) Investments and other financial assets

(i) Classification

The group classifies its financial assets in the following measurement categories:

1. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
2. those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

(i) Debt instruments

Subsequent measurement of debt instruments depends on the group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

1. Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
2. Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
3. Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(j) Equity instruments

The group subsequently measures all equity investments at fair value. Where the group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there

is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(k) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the group has elected to continue with the carrying value of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term as follows:

1. Freehold buildings 25-40 years
2. Machinery 10-15 years
3. Furniture, fittings and equipment 3-5 years

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the group will obtain ownership at the end of the lease term.

Schedule II

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

(l) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 25-40 years. The useful life has been determined based on technical evaluation performed by the management's expert.

i) Estimation of uncertainties relating to the global health pandemic from COVID-19

The COVID -19 pandemic is an evolving human tragedy declared as global pandemic by the World Health Organisation with adverse impact on economy and business. Supply chain disruptions in India as a result of the outbreak started with restrictions on movement of goods, closure of borders etc., in all states followed by a nation-wide lockdown from the 25th of March 2021 announced by the Indian Government, to stem the spread of Covid -19. In light of these circumstances, the company has considered the possible effects, if any, that may result from Covid-19 on the carrying amounts of financial assets, inventory, receivables, advances, etc., as well as liabilities accrued. Based on the assessment of current indicators of future economic conditions, the management does not envisage any significant impact on its financial results and its financial position as on 31st March 2021. In developing the assumptions and estimates relating to the uncertainties as the Balance sheet date in relation to the recoverable amounts of these assets, the management has considered the global economic conditions prevailing as at the date of approval of these financial results and has used the internal and external sources of information to the extent determined by it. The actual outcome of these assumptions and estimates may vary in future due to the impact of the pandemic.

k) Leases

The Company has adopted Ind AS 116-Leases effective from 1st April, 2019, using the modified retrospective method. The company has applied the standard to its lease with the cumulative impact recognised on the date of initial application (1st April, 2019). Accordingly, previous period information has not been restated.

The Company's lease asset consists of lease for Building. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual fund units that have a quoted price. The fair value of all equity instruments which are traded on Stock Exchanges is valued using the closing price as at the reporting period. The mutual fund units are valued using the closing net asset value (NAV).

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. These instruments are collectively not material and hence disclosures regarding significant unobservable inputs used in level 3 fair values have not been made.

Risk exposure and asset-liability matching

Provision of a defined benefit scheme poses certain risks, some of which are detailed hereunder, as companies take on uncertain long term obligations to make future benefit payments.

Notes Forming Part of Accounts

1) Liability risks

a) Asset-liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements.

b) Discount rate risk

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practice can have a significant impact on the defined benefit liabilities.

c) Future salary escalation and inflation risk

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz. LIC of India and other insurance companies. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

Financial Instruments

a) Management of Credit Risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primary trade receivables) and from its investing activities, including deposits with banks and other financial instruments. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified.

The company's credit risk for trade receivables is as follows (Rs.in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020
Trade receivables	21,777.84	21,264.49

The movement in allowance for credit loss in respect of trade receivables during the year is as follows: (Rs. in lakhs)

Allowance for credit loss	As at 31st March 2021	As at 31st March 2020
Balance at the beginning	38.58	28.43
Loss allowance recognised	(6.36)	10.15
Balance at the end	32.22	38.58

Credit risk on cash and cash equivalent is limited as the company generally transacts with banks and financial institutions with high credit ratings assigned by international and credit rating agencies.

b) Management of market risk

- i) Fair value risk
- ii) Foreign exchange risk

The above risks may affect income and expenses, or the value of its financial instruments of the Company. The objective of the Management of the Company for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Company exposure to, and the Management of, these risks is explained below:

C Management of Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its obligations associated with its financial liabilities that are settled by delivering cash or another financial asset as they fall due. The Company is exposed to this risk from its operating activities and financial activities. The Company's approach to managing liability is to ensure as far as possible that it will have sufficient liquidity to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Liquidity requirements are maintained within the credit facilities established and are available to the Company to meet its obligations.

**Explanatory Statement to addendum to Notice to Shareholders Pursuant to
Sections 102 (1) of and 110 of Companies Act, 2013**

Items No. 8 , 9 and 10

The paid-up share capital of the Company is Rs. 27,10,70,780 (Rupees Twenty Seven Crore Ten lakh Seventy Thousand Seven Hundred and Eighty only) consisting of 2,71,07,078 equity shares of Rs. 10/- (Rupees Ten only) each.

As the members are aware, the equity shares of your Company are listed on the National Stock Exchange of India Limited (NSE) and are also regularly traded on the Exchange. Owing to the Company's strong financial performance, the market price of the Company's Equity Share has grown steadily over the past several Months. In order to improve the liquidity of Company's shares, the Board of Directors at its meeting held on August 11, 2021 have proposed to sub-divide the nominal value and paid up value of (Authorized/ Subscribed, Issued and Paid-up) of the Company from one equity share of Rs.10/- (Rupees Ten only) each to equity shares of Rs. 2/- (Rupees Two only) each.

The aforesaid sub-division of equity shares into shares of Rs. 2/- (Rupees Two only) each would require amendment to existing Capital Clause V of the Memorandum of Association and Article 4 (a) of Articles of Association.

Record Date will be fixed by the Company for the purpose of ascertaining the list of members whose shares shall be sub-divided.

Pursuant to the provisions of Section 13 and 61 (1) (d) of the Companies Act, 2013, approval of the members is required for sub-division of shares and consequent amendment of clause V of the Memorandum of Association and Article 4 (a) of Articles of Association.

In case of the fraction share, the Company shall not issue any certificate or coupon in respect thereof but all fractions resulting from the sub-division of shares in the aforesaid manner shall be consolidated into whole equity shares and the Board shall have the authority to dispose of such whole shares by selling them at the market price and to distribute the net proceeds thereof (less expenses, if any) proportionately, as far as practicable, to the members concerned.
