Notes:

- 1 Considering the seasonal nature of industry, the results of any quarter may not be a true and/or proportionate reflection of the annual performance of the Company.
- 2 The Optionally Convertible Debentures (OCDs) aggregating to Rs.3483.25 crore issued by the Company to the Joint Lenders' Forum (JLF) of the Company in accordance with the Scheme for Sustainable Structuring of Stressed Assets (S4A Scheme) towards the conversion of a part of the unsustainable debt, provides the holder an option to exercise the right to convert the outstanding OCDs into the equity shares of the Company at a price in accordance with applicable laws (including the ICDR Regulations). There is a contractual obligation related to the premium payable on OCD at the time of redemption of OCD, which stipulates that the YTM (Yield to maturity) being the difference between weighted average interest and coupon rate interest is payable as redemption premium at the time of redemption of OCD which are redeemable in 13 equal instalments commencing from the financial year 2024-25. The Company considers such premium to be paid contingent on the occurrence of the event of redemption of OCDs, the YTM of Rs.2719.63 crore from the date of allotment of OCDs till December 31, 2023 (including Rs.152.85 crore and Rs.456.89 crore for the quarter and 9 months ended on December 31, 2023 respectively) treated as a contingent liability and would be accounted for as finance cost at the time of redemption of respective OCDs. Auditors have drawn qualification for non-provision of YTM premium up to December 31, 2023.
- 3 The Company has exposure aggregating to Rs.2478.11 crore in its subsidiaries, by way of investments, trade receivables, loans, accumulated interest on these loans. Management is of the view that sufficient efforts are being undertaken to revive the said subsidiaries in the foreseeable future so as to recover carrying value of the investments, loans, and the diminution/provisions, if any exists, is only of temporary nature and accordingly no provision, other than those already accounted for, has been considered necessary. Auditors have drawn emphasis of matter in their limited review report. Further on the basis of principle of conservatism and prudence, the Company has not recognised interest income Rs. 28.26 Crore and Rs. 84.47 crore for the quarter and nine months ended on December 31, 2023 respectively, on inter corporate loans, as and when it is realized it will be recognized in the books.
- 4 The Company has received a sum of Rs. 1,361 Crore on 30.10.2023 in respective escrow account maintained exclusively for cane price payments for each of its 14 sugar units from Uttar Pradesh Power Corporation Ltd (UPPCL) through Cane Commissioner Uttar Pradesh by operation of Law. The said amount is paid to the cane growers towards the cane payment arrear for sugar season 2022-23.
- 5 The Company during the last few years have positive EBITDA (Earnings before interest, taxes depreciation and amortisation) however have incurred losses at PAT (Profit after Tax) level and the Company has outstanding sugar cane dues as at December 31, 2023 which it will mitigate through liquidation of its stocks and other accrued benefits. The losses were mainly attributable to higher raw material cost i.e., sugarcane prices fixed by State Government and relatively lower sugar price realization dependent on demand supply dynamics in the market, other input costs, higher depreciation, and finance expenses.
To mitigate the said sugar price risk, Government had fixed Minimum Selling Price (MSP) of sugar @ Rs.31 per kg on lower side which industry associates are advocating to increase the same upto the level of Rs 38-40 per kg. The Government has implemented monthly release mechanism to regulate sugar supplies in the market so that prices remain firm.
The Company's investment in equity share of group's power business have good potential of an upside as per its fair value resulting into improvement in the net worth of the Company. The Company is the largest integrated Sugar and Ethanol manufacturing company in India with 14 sugar factories (1,36,000 TCD), 6 Distilleries (800 KLD) and cogeneration (449 MW) facilities and crushes around 14% of the total sugar cane grown in the State of Uttar Pradesh. The Company has huge potential for improvement and growth due to its scale, size and vintage. The Company also expects to receive accrued benefits of Rs 1809.00 crore including interest as on December 31, 2023, under the Sugar Industries Promotion Policy, 2004 for which it is entitled as per Court orders but presently, the matter is sub-judice.
The Company is continuously striving to improve its operational efficiencies by way of improvement in cane area, sugar recovery, pushing it from commodity to brand through improved quality of sugar, increase in revenue of by-products by improved realisations, saving in bagasse, increase in cogen export etc, reduction of overheads, finance, other costs etc. The Company is also exploring /evaluating various option for corporate restructuring to streamline the business and enhance the Company's value. In view of the above, management expects to generate positive cash flow from operation. Accordingly, the financial results are presented on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the ordinary course of business. This matter has been referred by auditors in their limited review report.
- 6 Previous periods figures have been regrouped/ rearranged/ reworked/ restated wherever necessary to conform to the current period classification.
- 7 The above unaudited standalone financial results for the quarter and nine months ended December 31, 2023 were reviewed by the Audit Committee and thereafter, approved by the Board of Directors and were taken on record at their respective meetings held on February 09, 2024.

Notes:

- 1 Considering the seasonal nature of industry, the results of any quarter may not be a true and/or proportionate reflection of the annual performance of the Group.
- 2 The Optionally Convertible Debentures (OCDs) aggregating to Rs.3483.25 crore issued by the Parent Company to the Joint Lenders' Forum (JLF) of the Parent Company in accordance with the Scheme for Sustainable Structuring of Stressed Assets (S4A Scheme) towards the conversion of a part of the unsustainable debt, provides the holder an option to exercise the right to convert the outstanding OCDs into the equity shares of the Parent Company at a price in accordance with applicable laws (including the ICDR Regulations). There is a contractual obligation related to the premium payable on OCD at the time of redemption of OCD, which stipulates that the YTM (Yield to maturity) being the difference between weighted average interest and coupon rate interest is payable as redemption premium at the time of redemption of OCD which are redeemable in 13 equal instalments commencing from the financial year 2024-25. The Parent Company considers such premium to be paid contingent on the occurrence of redemption of OCDs, the YTM of Rs.2719.63 crore from the date of allotment of OCDs till December 31, 2023 (including Rs.152.85 crore and Rs. 456.89 crore for the quarter and nine months ended on December 31, 2023 respectively) treated as a contingent liability and would be accounted for as finance cost at the time of redemption of respective OCDs. Auditors have drawn qualification for non-provision of YTM premium up to December 31, 2023.
- 3 The Parent Company has received a sum of Rs. 1,361 Crore on 30.10.2023 in respective escrow account maintained exclusively for cane price payments for each of its 14 sugar units from Uttar Pradesh Power Corporation Ltd (UPPCL) through Cane Commissioner Uttar Pradesh by operation of Law. The said amount is paid to the cane growers towards the cane payment arrear for sugar season 2022-23.
- 4 The Group during the last few years have positive EBITDA (Earnings before interest, taxes depreciation and amortisation) however have incurred losses at PAT (Profit after Tax) level and the Parent Company has outstanding sugar cane dues as at December 31, 2023 which it will mitigate through liquidation of its stocks and other accrued benefits. The losses were mainly attributable to higher raw material cost i.e., sugarcane prices fixed by State Government and relatively lower sugar price realization dependent on demand supply dynamics in the market, other input costs, higher depreciation, and finance expenses.

To mitigate the said sugar price risk, Government had fixed Minimum Selling Price (MSP) of sugar @ Rs.31 per kg on lower side which industry associates are advocating to increase the same upto the level of Rs 38-40 per kg. The Government has implemented monthly release mechanism to regulate sugar supplies in the market so that prices remain firm.

Investment in equity share of group's power business have good potential of an upside as per its fair value resulting into improvement in the net worth of the Group. The Parent Company is the largest integrated Sugar and Ethanol manufacturing company in India with 14 sugar factories (1,36,000 TCD), 6 Distilleries (800 KLD) and cogeneration (449 MW) facilities and crushes around 14% of the total sugar cane grown in the State of Uttar Pradesh. The Group has huge potential for improvement and growth due to its scale, size and vintage. The Parent Company also expects to receive accrued benefits of Rs 1809 crore including interest as on December 31, 2023, under the Sugar Industries Promotion Policy, 2004 for which it is entitled as per Court orders but presently, the matter is sub-judice.

The Parent Company is continuously striving to improve its operational efficiencies by way of improvement in cane area, sugar recovery, pushing it from commodity to brand through improved quality of sugar, increase in revenue of by-products by improved realisations, saving in bagasse, increase in cogen export etc, reduction of overheads, finance, other costs etc. The Group is also exploring /evaluating various option for corporate restructuring to streamline the business and enhance the Group's value. In view of the above, management expects to generate positive cash flow from operation. Accordingly, the financial results are presented on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the ordinary course of business. This matter has been referred by auditors in their limited review report.

- 5 Previous periods figures have been regrouped/ rearranged/ reworked/ restated wherever necessary to conform to the current period classification.
- 6 The figures for the quarter and nine months ended December 31, 2023 included in the statement of consolidated financial results have been approved by the Holding Company's Board of Directors, pursuant to Regulation 33(8) of SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015 as amended. The figures of the three foreign subsidiaries and two Indian subsidiaries for the quarter and nine month ended December 31, 2023 are management certified.
