PERFORMANCE:

Your Directors report that for the year 2025-26, your Company made a Profit of Rs.112.37 Crores (before tax) against a Profit of Rs.41.84 Crores made last year. The Net Profit (After Tax) was Rs.83.67 Crores against Rs. 31.49 Crores made last year. The increase in profitability is on account of increase in the selling price of Caustic Soda and other chemicals and also due to lower losses on account of discontinuation of operations at all the Sugar Units.

DIVIDEND:

Your Directors are glad to recommend a Dividend of Rs. 1.20 per Equity Share i.e., 60% (Face Value of Rs.2/-) Normal dividend of Rs. 1/- (50%) and special dividend of Rs. 0.20 (10%) of the company for the year 2025-26. With this Dividend, if approved, your Company would have the distinction of rewarding its Shareholders continuously for the past 6 decades. The outflow towards Dividend payment would be Rs. 16,26,42,468/-.

The Power generated by 33 MW Coal Based Captive Power Plant set up by the Company at Saggonda during this year is 227234000 KWH. The entire Power is being used at our Chemical Plants at Saggonda.

The Power generated by at 2.5 MW Solar Captive Power Plant set up by the Company at Kovvur during this year is 3054777 KWH. The entire Power is being used at our Chemical Plants at Kovvur.

PROJECTS:

A. Caustic Soda:

At present 600 TPD Caustic Soda facility is being operated at our Chemical Complex at Saggonda. This Plant is based on the latest 6th Generation Membrane Technology which is Energy Efficient & Environmentally friendly.

Sodium Sulphate recovery plant works are in progress and it is expected that this plant will be operational during the year 2026-27.

B. Sodium Hypochlorite:

Your Company is setting up a Project at J.N. Pharmacity, Parawada, Visakhapatnam in the non-SEZ area to manufacture 100 TPD Sodium Hypochlorite. Required statutory approval was obtained for setting up the Plant. The estimated project cost was about Rs.18.00 Crores. The required raw materials viz., Sodium Hydroxide and Chlorine gas will be supplied from our Chemicals Division Operations at Saggonda.

We planned to utilize the 42.28 acres site completely in a phased manner and have obtained CFE from APPCB for setting up a Chlor-alkali project.

Your Company has filed a writ petition in the Hon'ble High Court of Andhra Pradesh against cancellation orders given by APIIC. However, the matter is being pursued with APIIC for Restoration of Allotment and Extension of time for Completion of the Projects. As Suggested by APIIC, the Writ petition in the Hon'ble High Court of Andhra Pradesh has been withdrawn. While APIIC and the State Government are considering our proposal, the developer Visakha Pharma City India Pvt. Limited(earlier known as Ramky Pharma City India Private Limited) has filed writ petition in the High Court of Andhra Pradesh and the matter is pending at the division bench.

Under the present circumstances, your Company has temporarily suspended the construction and commissioning activities at Parawada Site.

C. The following Projects are under progress:

(i) 1.5 MW Solar Power Plant at Tanuku is expected to be commissioned by the end of June, 2026.

(ii) Solar Power Plant of 12 MW will be implemented at Saggonda during the year 2026-27.

(iii) Board of Directors have approved setting up a 10 MT Compressed Bio-Gas Plant at Taduvai. Discussions are going on with the vendors, and the project will be taken up accordingly after evaluating the proposals.

persons who may be appointed in Senior Management and Key Managerial positions and to determine their remuneration based on the Company's size and financial position and trends and practices on remuneration prevailing in the industry. Appointment of Managing Director / Whole-time Director / KMP and Functional Heads are placed before Nomination and Remuneration Committee for its consideration and recommendation to the Board.

CORPORATE SOCIAL RESPONSIBILITY (CSR):

As required by the Provisions of the Companies Act, 2013, a Corporate Social Responsibility (CSR) Committee has been constituted by the Board of the Company. Sri P. Narendranath Chowdary, Chairman and Managing Director is the Chairman of The Committee. Sri Mullapudi Thimmaraja, Joint Managing Director and Sri P. Venkateswara Rao, Independent Director are Members of the Committee. This Committee has formulated a CSR Policy pursuant to Section 134(3)(o) which has been approved by the Board. This Policy envisages CSR Activities to be taken up, the amount of expenditure to be incurred and monitoring of CSR Activities from time to time.

This Policy aims to achieve the CSR objectives by undertaking one or more of the activities to be in alignment with Schedule VII of the Companies Act, 2013 either on its own or through any Trust / Society or any other recognized Agency.

As per the provisions of Section 135(5) of the Companies Act, 2013, the company should spend in every Financial Year at least 2% of the average net profits of the company made during the three immediately preceding Financial Years. In pursuance of its Corporate Social Responsibility Policy, the company gives preference to the local area and areas around it, where it operates or any other permissible location for spending the amount earmarked for Corporate Social Responsibility activities.

Accordingly, for achieving its CSR objectives through the implementation of meaningful and sustainable CSR programmes, your Company allocates at least 2% of its average Net Profits calculated as per Section 198 of the Companies Act, 2013, as its Annual CSR Budget in each Financial Year.

From the Annual CSR Budget allocation, a provision is made towards the expenditure to be incurred on identified areas, for undertaking CSR activities on a year-to-year basis.

Allocation of the Annual Budget for CSR activities in any given year would be as per the provisions of the Companies Act, 2013 and rules made thereunder as amended from time to time. Any unspent/unutilised CSR allocation of a particular year will be carried forward to the next year, i.e., the CSR budget will be non-lapsable in nature.

As required by Rule 8 of the Companies (CSR Policy) Rules, 2013, a Report on CSR Activities and the amount of expenditure incurred are annexed to this Report as Annexure-VI.

S.No.	Name of the Director	Category	Designation
1.	Sri P. Venkateswara Rao	Chairman	Non-Executive and Independent Director
2.	Sri Mullapudi Narendranath	Member	Joint Managing Director
3.	Sri P. Achuta Ramayya	Member	Joint Managing Director
4.	Sri P.S.R.V.K. Ranga Rao	Member	Executive Director

RISK MANAGEMENT POLICY:

The Risk Management Committee has formulated a Risk Management Policy pursuant to Section 134(3)(n) which has been approved by the Board, which envisages the following:

- Identification of areas of Risk
- Assessing the impact of Risks
- Steps taken to mitigate the Risk.

The Major Segments of operations of the Company at present are Chlor Alkali and Chemicals.

The Chlor Alkali segment is power intensive where Power constitutes a major input cost. Restricted power supply and increased power costs have become a cause of concern. To mitigate this impact, a Solar Power Plant has been commissioned at Kovvur. At Saggonda a 33 MW Coal Based Captive Power Plant has been operative.

Company is also making efforts for setting up of Solar Power at various locations including Saggonda. The Company is also following up with the State Government and other Regulatory Authorities for Categorization of Chlor-Alkali Industry in to "Energy Intensive Category". This will have the power cost for the Plants at Saggonda. Volatile market conditions and disposal of Chlorine constitute a major risk factor for the segment.

MANAGEMENT DISCUSSION AND ANALYSIS

The Business Operations of the Company are into Sugar, Chloro-Alkali, Chemicals, Pharma and Power

SUGAR - Outlook, Opportunities & Threats :

Initially when Unit-1 (Tanuku) was setup cane was supplied from the Delta Area around Tanuku which had a rotational 2nd Crop But after the Godavari Barrage was built the Delta Area was converted to continuous 2nd Crop causing a Drop in cane Growing Area resulting in Uneconomic Quantity of Cane Supply. So, Unit-1 at Tanuku was permanently closed.

Unit-2 (Taduvai) was basically a Tobacco Growing Area. But when Black soil Tobacco Exports Ceased Farmers swiched to Cane Growing due to which we setup our Unit -2 at Taduvai. For past few seasons due to a shortage of Tobacco, Rates Shot-up causing Farmers Switching back to Tobacco resulting in Cane Supply dropping to uneconomic levels resulting in **Temparary Ceasing** of operation at Unit-2.

Unit-3 (Bhimadolu) Area Farmers switch to growing Maize, so Cane supply dropped to uneconomic quantities resulting with ceasing at Bhimadolu. Location of Unit-3 at Bhimadolu has the National Highway on both sides, plus the main Railway line which makes the site very suitable for Warehousing. The New Sugar Godowns at Unit-3 have been rented for Warehousing. As Demand picks up we could add more Warehouse space.

CHLOR ALKALI & CHEMICALS - Outlook, Opportunities & Threats :

Your Company has an Integrated Chemical Complex at Saggonda manufacturing Caustic Soda, Chlorine and other Allied Products. Caustic Soda Plant has a capacity of 600 TPD as on 31.03.2026. Further Sulphuric Acid Capacity is 800 TPD. A 25 TPD Caustic Potash Plant is in operation at Kovvur, East Godavari District, Andhra Pradesh.

During the year 2025-26, Caustic Soda Industry has witnessed the following Scenario.

- Increased production capacities and volatile demand cycles have impacted market prices.
- Difficulty in the disposal of Chlorine and HCL is a vital bottle neck.
- End users of Chloro-Alkali products have not lifted stocks due to slowdown in their operations.
- The industry is currently facing supply chain gap caused by Geopolitical and logistics issues.
- In addition, enhanced production capacities came into existence, which lead to accumulation of stocks of co-products of Chlorine and HCL. Some of the Pharma Units as well as medium-scale industrial segments reduced their production capacities by 30% to 40%. All these factors have adversely influenced domestic manufacturers in terms of disposal of Chlorine and HCL.
- Power, which is a major input for the production of Caustic Soda, is required to be available at an economical price. The high cost of Power is always a matter of concern and there is a need for the Government to classify this Industry under "Energy Intensive Industry" to get the benefit of availing Power at a concession rate. The Company is continuously representing the State Government and Regulatory Authorities in this regard.
- Despite the market constraints as prevailed, consequent upon long-lasting association, your Company has been getting consistent support from the bulk Customers and Traders who have been honoring their off take. This has given an advantage to your Company to produce Caustic Soda as per the Production and Marketing Plans perceived.

Price of Sulphur, raw material for Sulphuric Acid, has gone up significantly and imported material availability is almost stopped from February, 2026.

BULK DRUG (ASPIRIN & SALICYLIC ACID) - Outlook, Opportunities & Threats :

We expect to restart the US business by the end of 2026 which was on a standstill because of bifurcation and merges happening among the world's major consumer brands.

We have got approvals from prospective new customers in the US for supply of our Aspirin Starch Granules along with Aspirin Crystals. Their usage is expected to be around 900 MT per annum.

We continue to work to increase our Global business particularly in Regulatory Markets, as our Aspirin Plant is in

line with updated international standards with Good Manufacturing Practices (cGMP) and approvals from USFDA, EDQM and TGA. Our customers have increased in recent years because of the availability of regulatory documents facilitating our customers to register their end products in respective markets. These are to get results in coming years with increased commercial value.

Meanwhile, indigenous business is continuing which is currently helping in reducing the gap of decreased export sales.

We manufacture various grades of Salicylic Acid and Sodium Salicylate.

We have REACH certification to export our Salicylic Acid to European Markets.

There is a good potential for Salicylic Acid in India and overseas markets apart from Pharma applications. We continue to work on to increase the business of these products in overseas markets as well. Our product is approved and under validation by prospective overseas customers. With this, volumes are expected to increase in 2026-27.

The focus is on Cost competency with better quality in the coming years and to widen our Overseas and Indigenous client base.

POWER - Outlook, Opportunities & Threats :

Your Company operates Chlor Alkali Plants which are Power Intensive with Power being a major input cost. Therefore, it is essential for your Company to ensure the availability of quantity and quality of Power to be self-sufficient in production and remain competitive. Keeping this in view, your Company established a 33 MW Captive Generation Thermal Power Plant at Saggonda. This is in addition to Solar Power Plant in operation at Kovvur. The Company is also setting up 1.5 M.W. Solar Power Plant at Tanuku and 12 M.W. Solar Power Plant at Saggonda. These two Plants will ensure adequate Power for Chemical Plants. Apart from this, the Company as a Shareholder avails Power from Andhra Pradesh Gas Power Corporation Limited (APGPCL), a Gas based Power Generation Company. The Power availed from this source is cheaper compared to State Electricity Board Power. From October, 2022 onwards there was no allocation of Natural Gas to APGPCL which resulted in the operations of APGPCL came to a halt. The Company also opts to avail Open Access Power to ensure that the Power is obtained at an economical rate. This would facilitate in augmenting the Power requirements of Chemical Plants.

INTERNAL CONTROL SYSTEM

Management and Audit Committee regularly review the financial and operating controls of the various Units. The Internal Control System of your Company is commensurate with its size and nature of business.

As per the provisions of the Companies Act, 2013 the Statutory Auditors have annexed a Report on Internal Control System to the Independent Auditors Report pertaining to Financial Year 2025-26.

26. Overview of the entity's material responsible business conduct issues:

As a diversified enterprise, ASL continues a system-based approach to Business Risk Management. The Management of risk is embedded in the corporate strategies of developing a portfolio of world-class Businesses that best matches with organizational capability with market opportunities, focusing on building distributed leadership, nurturing talent, and enhancing organisational capabilities through timely developmental inputs.

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicatepositive or negative implications)
1	**Renewable Power**	Opportunity	Reduction of pollution and protection of the environment.	The company proposes for sourcing up of renewable energy like Solar, Green Hydrogen etc. that will help in reducing Gree House Gases (GHG) emissions.	Initially because of higher Capex, this will be negative but in medium to long term it will be positive.
2	**Raw material (Sugarcane availability)**	Risk	Continuous drop in the availability of Sugar Cane.	Sourcing of sugarcane produced through sustainable farming practices viz., Mechanisation of Plantation and Harvesting, Timely payment to farmers and payment of Cane price more than the FRP fixed by Govt.	Inspite of various approaches to mitigate this risk, still plantation levels are not encouraging. This might be negative in the Medium Term/ Long Term.
3	**Energy Management**	Risk & Opportunity	Power being one of the Major inputs for Chlor Alkali and other Segments. Availability of Quality Power at reasonable price is always a matter of concern. The company has setup Coal Based captive Power Plant for augmenting power requirements for its captive use.	To effectively manage the risks associated with energy management, the company is undertaking the following approaches: 1. Energy Efficiency efforts: Implementing energy-efficient technologies, equipment upgrades, and process optimization to minimize energy consumption. 2. To reduce reliance on non-renewable energy sources.	**Risk:** Negative Financial Implications: Inefficient energy consumption can lead to higher energy costs, impacting on the company's profitability.

				3. Renewable Energy Integration: Exploring and investing in renewable energy sources, such as solar and Green Hydrogen to diversify the energy mix and decrease dependence on fossil fuels.	**Opportunity:** Adopting energy-efficient practices and integrating renewable energy sources can result in cost savings over the long term.
4	**Volatile Market Trends**	Risk	Prices of the Imported Raw Materials are highly volatile. Further volatility in the segments where the Company's products are sold is always a matter of concern.	To address the risks associated with volatile market trends, the company is implementing the following approach: i.e., Diversification of Customer Base and to enhance supply chain resilience and exploring various possibilities for reducing costs of Key elements such as power etc. and investing continuously in Technology advancement.	Moderate. High for the Raw Material Sulphur.
5	**Corporate Social Responsibility**	Opportunity	The Company has been spending for the development of Education and Health Care even before CSR has been made mandatory. As a part of CSR obligation, key areas of CSR activities for the year 2025-26 include: 1. Health Care 2. Environmental Sustainability 3. Safe Drinking Water		For medium to long term, it will be positive.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

   We have adopted reduce, reuse, and recycle concepts in waste Management. The waste generated in our complex is broadly categorized into different types of wastes viz. solid waste and liquid waste. The solid waste generated is further segregated into incinerable waste and land fill waste. Incinerable waste like spent carbon is recycled to cement industries for co-processing / authorized recyclers.

   The other hazardous waste (land fill able) is sent to TSDF, Parawada. Part of the land fillable waste is being disposed in houses in the secured land fill facility. Waste oil and e-waste are disposed to authorized recyclers. Used lead acid batteries are disposed to the battery manufacturers on a buy back basis.

   Our Company is encouraging the usage of non-asbestos roof sheets in place of hazardous asbestos roof sheets for the structural buildings.

   Depending on the nature of the liquid wastes, they are treated using different types of pollution control technologies, such as anaerobic and aerobic treatment systems, reverse osmosis and multiple effect evaporation systems and making them zero liquid discharge where-ever possible.

Independent Auditor'sReport

To the members of **THE ANDHRA SUGARS LIMITED, TANUKU**

Report on Audit of Standalone Financial Statements:

Opinion

We have audited the accompanying Standalone financial statements of **THE ANDHRA SUGARS LIMITED** ("the company"), which comprise the Balance Sheet as at 31st March 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the material accounting policies and other explanatory information (herein after referred to as "the Standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us the accompanying financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2026, and itsprofit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's responsibility for the Audit of Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone financial statements.

Key Audit Matters

Key Audit matters are those matters that in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibilityand Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements:

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act,

2013 ("the Act") with respect to the preparation of these StandaloneFinancial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the management and Board of Directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of Internal Financial Controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

  Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors (i) in

planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1) As required by the Companies (Auditor's Report) Order,2020("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

   f) with respect to the adequacy of internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B", Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls with reference to Standalone Financial Statements;

   g) With respect to Managerial Remuneration to be included in the Auditor's report under Section 197(16)

      In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act;

   h) With respect to the other matters to be included in the Auditor's report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014,as amended in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements - Refer Note 33& 34 to the Standalone Financial Statements;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. As stated in Note 12(2) to the Standalone Financial Statements

(a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Companies Act, 2013 as applicable.

(b) The Board of Directors of the Company have proposed 60% percent dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. Thedividend proposed is in accordance with section 123 of the Companies Act, 2013 as applicable.

(viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961. Hence, reporting under clause 3(viii) is not applicable.

(ix) (a) According to the records of the company examined by us, and the information and explanations given to us, there were no defaults in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year under report.

(b) The company has not been declared wilful defaulter by any bank or financial institution or other lender.

(c) The Company has not raised any new term loans during the year. Also, there are no term loans outstanding at the beginning of the year.Hence, reporting under clause 3(ix)(c) is not applicable.

(d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the company, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) The company has not raised loans during the year on the pledge of securities held in its subsidiaries, associate or joint venture. Hence, the reporting on clause 3(ix)(f) of the Order is not applicable.

(x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence, reporting under clause 3(x)(a) of the Order is not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence, reporting under clause 3(x)(b) of the Order is not applicable.

(xi) (a) No fraud by the company and no materialfraud on the company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.

(c) We have taken into consideration the whistle blower complaints received by the Company during the year (and up to the date of this report), while determining the nature, timing and extent of our audit procedures.

(xii) The company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

(xiii) In our opinion, the Company is in compliance with section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the Standalone Financial Statements as required by the applicable accounting standards.

(xiv) (a) In our opinion the company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

(xv) In our opinion during the year the company has not entered into non-cash transactions with directors or persons connected with its directors, and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) ad (c) of the Order is not applicable.

(b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016 and accordingly reporting under 3(xvi)(d) of the Order is not applicable.

(xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors of the Company during the year.

(xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, the auditor's knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

(b) There are no ongoing projects, and hence no unspent amount required to be transferred to special account in compliance with the provision of sub-section 6 of section 135 of the Companies Act, 2013.

Annexure - B to the Independent Auditors' Report

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **The Andhra Sugars Limited** of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to Standalone Financial Statements of **The Andhra Sugars Limited** ("the Company") as of 31st March 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management'sand Board of Directors' Responsibility for Internal Financial Controls

The Company's management and Board of Directorsare responsible for establishing and maintaining internal financial controls with reference to Standalone Financial Statements based on the internal controlover financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Standalone Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial Statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at 31st March 2026, based on the internal control with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Andhra Sugars Limited ('the company") is a leading manufacturers' of Sugar, Industrial Alcohol & Chlor Alkali Products, Aspirin, Salicylic Acid, Sulphuric Acid, Liquid & Solid Propellants, and also generating power through renewable and non-renewable resources.

The company is a public limited company incorporated and domiciled in India and has its registered office at Tanuku, Andhra Pradesh, India. The securities of the company were listed in National Stock Exchange of India Limited.

1.1 MATERIAL ACCOUNTING POLICIES

The accounting policies mentioned herein are relating to the standalone financial statements of the Company.

a) Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and guidelines issued by the Securities and Exchange Board of India (SEBI).

These financial statements are prepared under the historical cost convention except for certain class of financial assets/ liabilities and net liability for defined benefit plans that are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

b) Current and Non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. In respect of other assets, it is treated as current when it is:

- expected to be realized or intended to be sold or consumed in the normal operating cycle
- held primarily for the purpose of trading
- expected to be realized within twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- it is expected to be settled in the normal operating cycle
- it is held primarily for the purpose of trading
- it is due to be settled within twelve months after the reporting period, or
- there is no un conditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

c) Use of estimates

The preparation of financial statements requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and notes thereto. The management believes that these estimates and assumptions are reasonable and prudent. However, actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future period.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in the relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

d) Significant Estimates and judgements

The areas involving critical estimates or judgments are:

i) Estimation of fair value of unlisted securities-

ii) Defined benefit obligation -

iii) Estimation of useful life of Property, Plant and Equipment -

iv) Estimation and evaluation of provisions and contingencies relating to tax litigations.

e) Recent Pronouncement

The below amendments to the existing standard which are notified by Ministry of Corporate Affairs but are not yet effective.

Amendment to Ind AS 1 "Presentation of Financial Statements" - Classification of Liabilities as current or non-current and non-current liabilities with covenants. The amendment includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, retrospectively, as outlined below:

a) Breach of material covenant for long-term loan arrangement on or before end of reporting period with effect that liability becomes payable on demand as on reporting date, then it shall be classified as current liability, if lender agreed after reporting period and before approval of financial statements to not demand payment as a consequence of breach.

b) Classify as non-current liability, if lender agreed by end of reporting period to provide grace period ending at least 12 months after reporting period within which entity can rectify the breach provided lender does not demand immediate repayment.

c) Disclose information about the timing of settlement to understand the impact of the liability on the financial statements.

The Company does not expect this amendment to have an impact on its operations or financial statements.

f) Property, Plant and Equipment

Freehold Land is carried at historical cost. All other items of Property Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation / amortization and impairment, if any. Cost includes purchase price, taxes and duties, labour cost and directly attributable overheads incurred upto the date the asset is ready for its intended use. However, cost excludes Goods and Service Tax to the extent credit of the duty or tax is availed of.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is de-recognized when replaced. All other repairs and maintenance are charged to Profit or Loss during the reporting period in which they are incurred.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

Depreciation and amortization

i) Depreciation on tangible fixed assets is charged over the estimated useful life of the asset,

- On part of buildings, Main plant and machinery and Electrical Installations of Caustic Soda division, Aspirin, Salicylic Acid, Wind Power at Ramagiri, Wind Power Tamilnadu, Power Generation and Sugar units at Taduvai and Bhimadole and all buildings, Plant and Machinery, Electrical Installations, Weigh Bridges and Scales and Workshop Equipment of Cotton & Oil Products unit, Sulphuric

Acid unit at SaggondaCoal based Power Plant at Saggonda and Solar Power Plant at Kovvur under Straight Line Method.

- On the remaining assets of the above units and all assets of other units, under Written Down value method.
- In respect of Inter unit Transfer of Assets, Depreciation is computed on the same basis as in the Transferor unit.
- In respect of the following assets, the useful life has been estimated by the technical personnel which is different from the life given under Part C of Schedule II of the Companies Act, 2013 as detailed here under:
  - Boilers, Chlorine storage Tank, MS Storage Tank, HCL Plant, DM Water plant, Diesel Generator set, ET Plant Pond, Turbines, Rectifiers, Cell Plant, Shell, Evaporation Plant, Fusion Plant, Sulphur Melting Station, Rotary Ball Mill, Bagassee Handling System, Centrifugal Machinery - 20 years.
  - MS Pipe lines, Refrigeration Plant, Distributed Control System, ET Plant, Brass Tubes, Bearings, Process Plant, Sodium Sulphate Recovery Plant - 15 years.
  - Cooling Towers, Instrumentation, Air Compressors, Chains - 10 years
  - Solar Plant - 25 years.

ii) Residual values and useful lives are reviewed, and adjusted, if appropriate, for each reporting period.

iii) Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each Balance Sheet date is classified as Capital advances under other Non-current assets and the cost of assets not put to use before such date are disclosed under Capital Work-in-Progress.

iv) Assets to be disposed off are reported at the lower of carrying value or fair value less cost to sell.

(g) Capital work-in-progress

Projects under commissioning and other Capital work-in-progress are carried at cost comprising of direct and indirect costs, related incidental expenses and attributable interest. Depreciation on Capital work-in-progress commences when assets are ready for their intended use and transferred from Capital work-in-progress Group to Tangible Fixed Assets Group.

h) Investment Property:

Investment properties are measured initially at cost, including transactions costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long term construction projects if the recognition criteria are met. When significant parts of the property are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

The company depreciates building component of investment property over 30 years from the date of original purchase.

Though the company measures investment property using cost based measurement the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

i) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over 6 years on a straight-line basis, from the date that they are available for use. In respect of approved Research and Development programme, expenditure of capital nature is included in

the fixed assets and other expenditure is charged off to revenue in the year in which such expenditure is incurred.

j) Impairment

i. Financial Assets:

The company recognizes loss allowances using Expected Credit Loss (ECL) model for the financial assets which are not fair valued through Profit and Loss. Loss allowance for trade receivables is measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial assets:

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are compared at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groupof assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

k) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). i.e in Indian rupee (INR) and all values are rounded off to nearest lakhs except where otherwise indicated.

(ii) Transactions and balances

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.

i) Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

ii) Non-monetary items denominated in foreign currency such as investments, fixed assets, etc., are valued at the exchange rate prevailing on the date of transaction.

iii) Exchange differences arising on settlement of transactions and translation of monetary items are recognized as income or expense in the year in which they arise.

l) Investment in Subsidiaries and Associates:

Investments in subsidiaries are measured at cost as per Ind AS 27 - Separate Financial statements.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the company's share of the net fair value of the identifiable assets and liabilities of the investee is recognized as goodwill, which is included within the carrying amount of the investment and is not tested for impairment individually. An excess of the company's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment is recognized directly in equity as capital reserve in the period in which the investment is acquired.

m) Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and cost necessary to make the sale.

i) Cost of raw materials, components, stores, spares and work-in-process are valued at cost, determined on a first-in-first-out basis except stores & spares which are valued at weighted average cost.

ii) Materials and supplies held for use in production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost. Slow and non-moving material, obsolesces, defective inventories are duly provided for.

iii) By-products and scrap are valued at net realizable value and it is reduced from cost of the main product.

iv) Excess/ shortages, if any, arising on physical verification are absorbed in the respective consumption accounts.

v) The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

n) Cash and Cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions/banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

o) Cash flow statement:

Cash flows are reported using the indirect method, whereby the profit for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

p) Financial instruments

Financial assets and financial liabilities are recognized when company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

q) Financial assets

All regular way purchases or sales of financial assets are recognized and de-recognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets with in the time frame established by regulation or convention in the market place.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets

For the impairment policy on financial assets - refer Para No. i (i).

1) Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortized cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognized in profit or loss for FVTOCI debt instruments. For the purposes of recognizing foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortized cost. Thus, the exchange differences on the amortized cost are recognized in profit or loss and other changes in the fair value of FVTOCI financial assets are recognized in other comprehensive income and accumulated under the heading of 'investment Revaluation reserve' through other comprehensive income'. When the investment is disposed of the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value through Profit and loss.

2) Effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognized in profit or loss and is included in the "Other income" line item.

3) Investments in equity instruments at FVTOCI

On initial recognition, the company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the 'investment Revaluation Reserve' through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the company manages together and has a recent actual pattern of short-term profit-making; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

The company has equity investments which are not held for trading. The company has elected the FVTOCI irrevocable option for both of these investments. Fair value is determined in the manner described in Para No.s.

Dividends on these investments in equity instruments are recognized in profit or loss when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognized in profit or loss are included in the 'Other income' line item.

4) Financial assets at fair value through profit or Loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading (see note. 3 above).

Debt instruments that do not meet the amortized cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortized cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortized cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases. The company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognized when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

5) De-recognition of financial assets

The Company de-recognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

6) Foreign exchange gain and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortized cost and FVTPL, the exchange differences are recognized in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognized in other comprehensive income.
- For the purposes of recognizing foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortized cost. Thus, the exchange differences on the amortized cost are recognized in profit or loss and other changes in the fair value of FTVOCI financial assets are recognized in other comprehensive income.

Financial liabilities and equity instrument

1) Classification as debt or equity

Debt and equity instruments issued by a company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument

2) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company entity are recognized at the proceeds received, net of direct issue costs.

Re-purchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

3) Financial liabilities

All financial liabilities are subsequently measured at amortized cost using the effective interest method or at FVTPL.

(i) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognized by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognized by the Company as an acquirer in a business combination to which Ind AS 103 applies, maybe designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the company is being provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognized in profit or loss. The remaining amount of change in the fair value of liability is always recognized in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognized in profit or loss.

Fair value is determined in the manner described in Para - s.

(ii) Financial liabilities subsequently measured at amortized cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortized cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortized cost are determined based on the effective interest method, interest expense that is not capitalized as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Company de-recognizes financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability de-recognized and the consideration paid and payable is recognized in profit or loss.

r) Borrowings

Borrowing cost incurred in connection with the funds borrowed for acquisition/erection of assets that necessarily take substantial period of time to get ready for intended use, are capitalized as part of such assets. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. All other borrowing costs are charged to revenue.

s) Provisions and contingent liabilities

i) Provision:

A provision is recorded when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated. The estimated liability for product warranties is recorded when products are sold based on technical evaluation.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Provisions are discounted when time value of money is material. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expenses.

ii) Contingent liabilities:

Wherever there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

iii) Contingent assets:

Wherever there is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent asset is disclosed when the inflow of economic benefit is probable.

t) Fair value measurement:

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The meth-

ods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value resulting general approximation of value, and such value may never actually be realized.

u) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and net of returns, trade allowances rebates and amounts collected on behalf of third parties. It excludes Goods and Services Tax.

Sale of products:

As per Ind AS 115, "Revenue from contracts with customers" Revenue from sale of products is recognized, when the performance obligation is satisfied, by transferring promised goods to the customer. An asset is transferred when (or as) the customer obtains control to the Asset, as per the terms of contract and it is probable that the economic benefits associated with the transaction will flow to the Company.

Internal Transfers from one unit to the other unit are recognized at Market value of the Product/Service at the Time of Transfer.

Interest Income:

Interest income from debt instruments is recognized using the effective interest rate method and is accrued on a time basis. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying value of a financial asset. While calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

Dividends:

Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be reliably measured.

v) Government Grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Grants related to revenue items are presented as part of profit or loss under general heading such as other income or they are deducted in reporting the related expenses.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the company with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Exceptional Items

An item of income or expense which by its size, nature, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and disclosed as such in the financial statements.

w) Employee benefits

i) Short term obligations:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service

are recognized in respect of employees' services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii) Other long-term employee benefit:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii) Post-employment obligation:

The Company operates the following post-employment schemes:

a) Defined benefit plans such as gratuity for its eligible employees,

b) Defined contribution plans such as provident fund and

c) Superannuation

d) National Pension Scheme(NPS)

Gratuity obligation:

The liability or asset recognized in the balance sheet in respect of defined benefit pension and gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the Government Bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (net-off deferred tax). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Provident Fund and Employees' state Insurance Scheme:

Eligible employees of The Andhra Sugars Limited receive benefits from a provident fund and Employees' State Insurance scheme which is a defined contribution plan. Both the eligible employee and the company make monthly contributions to the Provident Fund and Employees' State Insurance equal to a specified percentage of the covered employee's salary.

Superannuation:

Certain employees of The Andhra Sugars Limited are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

With effect from 01.10.2025, the company migrated to NPS Scheme from existing Superannuation Scheme for all the existing supervisory cadre employees, except Whole Time Directors.

National Pension Scheme:

The Company contributes to the National Pension System (NPS), a defined contribution retirement benefit scheme, for eligible employees. Contributions made to the NPS are recognized as an employee benefits expense in the Statement of Profit and Loss during the period in which the employees render the related services. The Company has no further obligation beyond its fixed contributions.

x) Taxes on income:

Tax expense comprises of current and deferred taxes. The income tax expense(income) for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax is the amount of income taxes payable in respect of the taxable profit (tax loss) for a period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

y) Leases

The Company has adopted Ind AS 116-Leases effective from 1st April, 2019, using the modified retrospective method. The company has applied the standard to its lease with the cumulative impact recognised on the date of initial application (1st April, 2019). Accordingly, previous period information has not been restated.

The Company's lease asset consists of lease for Building. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

(i) the contract involves the use of an identified asset

(ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and

(iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

z) Dividend:

Final dividends on shares are recorded as liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's board of directors.

aa) Expenditure on approved Research and Development Programme:

In respect of approved Research and Development Programme expenditure of capital nature is included in Property, Plant and Equipment and other expenditure is charged off to revenue in the year in which such expenditure is incurred.

ab) Segment reporting

Operating segments are defined as components of our entity for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance, the company's chief operating decision maker is the Chairman and Managing Director.

The company has identified business segments (industry practice) as reportable segments. The business segments comprise 1) Sugars, 2) Chlor Alkali, 3) Power Generation, 4) Industrial Chemicals -such as Suphuric Acid, UH 25 and MMH, Liquid Hydrogen, HTPB and 5) Others such as bulk drugs and Cattle Feed, Superphosphate etc.,

Revenue and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly attributable to each reporting segment have been allocated on the basis of associated revenue of the segment. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable. Property, Plant and equipment that are used interchangeably among segments are not allocated to reportable segments.

Note: 1. Though the Sodium Hypo Chloride Project has been started in the year 2010, with an estimated cost of Rs.1000.00 lakhs. In view of various unforeseen developments from 2012 to till date and matter being held up due to legal issue for last three years have resulted in the time overrun of the project and consequent increase in the project cost. Further, we are unable to state, when the project is to be completed, as the matter is pending with divisional bench of Hon'ble AP High Court.“ "

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix. The provision matrix takes into account historical credit losse experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and the rates as per the provision matrix. The provison matrix as follows:

Ageing	Expected credit loss %
Within the credit period	**Nil**
Up to 60 days past due	**0.25**
60-90 days past due	**0.50**
more than 90 days past due	**1.00**

Credit risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract leading to Financial loss.

The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual fund units that have a quoted price. The fair value of all equity instruments which are traded on Stock Exchanges is valued using the closing price as at the reporting period. The mutual fund units are valued using the closing net asset value (NAV).

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivates) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. These instruments are collectively not material and hence disclosures regarding significant unobservable inputs used in level 3 fair values have not been made.

Risk exposure and asset-liability matching
Provision of a defined benefit scheme poses certain risks, some of which are detailed hereunder, as companies take on uncertain long term obligations to make future benefit payments.

1) Liability risks

a) Asset-liability mismatch risk
Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements.

b) Discount rate risk
Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practice can have a significant impact on the defined benefit liabilities.

c) Future salary escalation and inflation risk
Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset risks
All plan assets are maintained in a trust fund managed by a public sector insurer viz. LIC of India and other insurance companies. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

Financial Instruments

a) Management of Credit Risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primary trade receivables) and from its investing activities, including deposits with banks and other financial instruments. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified.

The company's credit risk for trade receivables is as follows

(Rs. in Lakhs)

Particulars	31st March 2026	31st March 2025
Trade receivables	12,969.63	14,535.09

Note: For the purpose of the above details of the status of the supplier's under the Act has been determined, to the extent of and based on information furnished by the respective parties, and has accordingly, been relied upon by the company and its auditors.

36. Consequent to the judgement given by the Hon'ble Supreme Court of India vide its order dated 29th November, 2019, upholding the power of Andhra Pradesh Electricity Regulatory Commission (APERC) to determine the levy of wheeling charges, the company has received demands from Andhra Pradesh Eastern Power Distribution Company limited (APEPDCL), for an amount of Rs.3092.18 lakhs in respect of four service numbers situated at Kovvuru, Taduvai, Tanuku and Gutala. The company has not received any demand in respect of one service situated at Saggonda from APEPDCL, which is not ascertainable on account of various pending cases at Hon'ble High Court of Andhra Pradesh and Telangana and Hon'ble Supreme of India, pertaining to wheeling charges and Allocation of Surplus power generated and transmitted by Andhra Pradesh Gas Power Corporation Limited (APGPCL) to its participating industries. Considering the revised wheeling charges as determined by APERC, in service situated at Saggonda, the company has to get refund of wheeling charges.

    In this regard, the company has made liability towards differential wheeling charges and on account of allocation of surplus power based on the bills raised by APEPDCL for an amount of Rs.13132.36 lakhs. Further, the differential payments made to APGPCL were shown as advance to the extent of rs.6576.20 lakhs (including back up bank guarantees encashed to the extent of Rs.520.01 lakhs by APGPCL due to invocation of bank guarantees by AP Transco., consequent to the judgement of Hon'ble Supreme Court of India on wheeling charges.)

    Pending disposal of cases on account of Allocation of Surplus power before Hon'ble Supreme Court of India, the liability towards wheeling charges as per APERC and energy charges payable to APEPDCL is unascertainable. Hence, the demands issued by APEPDCL need further revision and the company has contended for the demands raised by APEPDCL.

37. Management approach and Key assumption used to determine the Fair Value under Level-3 hierarchy Income approach is the valuation technique used for determination of the Fair Value of the unquoted equity instruments in APGPCL. It converts future expected cash flows (savings in Power Cost) to single discounted amount by using the present value techniques. The Management of APGPCL has decided "Layoff" w.e.f. 01.11.2022, due to cancellation of allocation of Natural Gas under advance price mechanism to the Company w.e.f. 01.09.2022. Accordingly there is no supply of Power to "ASL, Since October 2022 to till date and also there is no certainty of supply of power by APGPCL in future. Based on disruption of activities of APGPCL and non-availability of Natural Gas and other legal issues there at the Fair Market value as at 31.03.2026 is determined as NIL.

38. During the year, the Company announced and implemented a Voluntary Retirement Scheme (VRS) for staff and workers of Sugar Units pursuant to suspension of operations of the unit. Independent Auditor's Report

To the members of **The Andhra Sugars Limited, Tanuku**

Report on Audit of Consolidated Financial Statements:

Opinion

We have audited the accompanying consolidated financial statements of **THE ANDHRA SUGARS LIMITED** ("the Holding Company"), its subsidiariesand its associate (Holding, subsidiaries and associate together referred to as "the Group") comprising the Consolidated Balance Sheet as at 31st March 2026, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the consolidated financial statements, including a summary of the material accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2026, the consolidated profit, consolidated total comprehensiveincome, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Groupin accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key Audit matters are those matters that in our professional judgment, were of most significance in our audit of the ConsolidatedFinancial Statements of the current period. These matters were addressed in the context of our audit of theConsolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In respect of the holding company "The Andhra Sugars Limited", we have determined that there are no key audit matters to communicate in our report.

In respect of subsidiaries, the auditors of the respective subsidiaries, have determined that there are no key audit matters reported by them in their respective audit reports furnished to us by the management, to communicate in our report.

In respect of the associate company "The Andhra Petrochemicals Limited", the audit procedures performed by the other auditor of associate not audited by us,have determined the key audit matters described below, as reported by them in their audit report furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Sl. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
1.	**Estimation of decommissioning and restoration provisions**	
	The determination and valuation of provision is highly judgmental by its nature, as they are calculated based on assumptions that are impacted by future activities and the legislative environment in which the company operates. Refer Note No. 48 of Consolidated Financial Statements	Our audit procedures to assess the decommissioning provision included the following: l We assessed the valuation methodology l We evaluated the reasonableness of key assumptions applied by the management to calculate the provisions. l We tested the calculation of the provisions. l We checked the accuracy and relevance of the input data used. l We found the disclosures in the financial statements to be appropriate. Conclusion: Based on the work performed, we found management's assessment to be reasonable based on available evidence.
2.	**Estimation of Lease liability**	
	Measurement of lease liability for the land taken on lease from Visakhapatnam Port Trust (VPT) involves significant judgement, as they are calculated based on terms & conditions of the tender floated by VPT and the financial bid submitted against the tender, which was later on cancelled and issued for re-tender. Due to its vast nature, even small changes in the terms of the lease agreement can have a material impact on the estimated lease liability and right of use asset. Refer Note No.49 of Consolidated Financial Statements.	Our audit procedures, among others included the following: l We obtained an understanding of the terms and conditions of the VPT's Land renewal lease policy "e-Tender cum e-Auction" to evaluate the appropriateness of key assumptions applied. l We have gone through the order from Hon'ble High Court of Andhra Pradesh allowing the writ petition filed by the company against the cancellation of tender for land lease dated 16.08.2020 and supporting evidence of lease rental payments to evaluate the reasonableness of the managements' judgment that the lease will be allotted to the APL. l We assessed the methodology adopted and assumptions used by management, including reasonableness of the discounted cash flows and discount rate applied. l We found the disclosures in the financial statements to be appropriate. Conclusion: Based on the work performed, we found management's estimation to be reasonable based on available evidence.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed and based on the work done/audit report of the other auditor, we conclude that there is a material misstatement of this other information,we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Chargedwith Governance for the Consolidated FinancialStatements

The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Groupand for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Groupare responsible for assessing the Group's and associate ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company, associateand its subsidiary companieshave adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Groupto continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial information of the holding company included in the consolidated financial statements of which we are the independent auditors. For the other entities and associate included in the consolidated financial statements, which has been audited by other auditors, such other auditors remains responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit report of the other auditors referred to in para (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

f) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of those companies, for reasons stated therein;

g) With respect to Managerial Remuneration to be included in the Auditors' report under Section 197(16):

In our opinion and according to the information and explanation given to us, the remuneration paid during the year by the Holding Company, subsidiaries and its associateis in accordance with the provisions of Section 197 of the Act.

The remuneration paid to any director by the Holding Company, subsidiaries and its associate, is not in excess of the limit laid down under Section 197 of the Act.

h) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

(i) the consolidated financial statements disclose impact of pending litigations on the consolidated financial position of the Group - Refer Note No.38 and 39of the Consolidated Financial Statements.

(ii) the Groupdid not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

(iii) there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, subsidiaries and associate incorporated in India.

(iv) (a) The respective Managements of the Company, subsidiaries and associate which are incorporated in India whose financial statements have been audited under the Act have represented to us and other auditors of subsidiaries and associate, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether re-

corded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The respective Managements of the Company, subsidiaries and associate which are incorporated in India whose financial statements have been audited under the Act have represented to us and other auditors of subsidiaries and associate, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) (a) The dividend declared or paid during the year by the holding company is in compliance with section 123 of the Companies Act, 2013.

(b) With respect to the subsidiary company "Jocil Limited" incorporated in India and associate company "The Andhra Petrochemicals Limited" incorporated in India, the dividend declared or paid during the year is in accordance with section 123 of the Companies Act, 2013. We have relied on the report submitted by the other auditors in respect of this matter.

(c) The Board of directors of the Holding Company have proposed Rs. 1.20 (60%) percent dividend subject to approval of members at the ensuing Annual General Meeting, the dividend proposed is in accordance with the provisions of section 123 of the Companies Act. The subsidiary company "Jocil Limited" incorporated in India, the dividend proposed by their Board of Directors at Rs. 3.50 per equity share of the face value of Rs. 10/- each,which is subject to approval of the members at the ensuing Annual General Meeting is in accordance with Section 123 of the Companies Act, 2013. We have relied on the report submitted by the other auditors in respect of this matter.

(vi) Based on our examination, which included test checks, performed by us on the Company and its subsidiaries and associate, except for the subsidiaries mentioned below, have used accounting software systems for maintaining their respective books of account for the financial year ended March 31, 2026 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems.. Further,,during the course of our audit we have not come across any instance of the audit trail featurebeing tampered with. Additionally the audit trail has been preserved by the Parent company and the above referred subsidiary and associate company incorporated in India as per the statutory requirements for record retention. The financial statements of two subsidiaries that are not material to the Consolidated Financial Statements of the Group, have maintained books of account entirely manually, and hence, the reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 does not arise in respect of these two subsidiaries.

ANNEXURE-B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of The Andhra Sugars Limited (hereinafter referred to as "The Holding Company") and its subsidiaries, as of and for the year ended 31stMarch 2026, we have audited the internal financial controls with reference to the consolidated financial statements of the holding company and subsidiary companies incorporated in India under the Companies Act, 2013 as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiaries are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over financial reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over financial reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and those receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies incorporated in India, in all material respects, an adequate internal financial controls system with reference to the Consolidated Financial Statements and such internal financial controls were operating effectively as at 31st March 2026, based on the internal control with reference to the consolidated financial statements criteria established by such Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to one subsidiary and associate, which is a company incorporated in India, is based on the corresponding reports of the auditors of such company

Our opinion is not modified in respect of the above matters.

Material accounting policies - consolidated financial statements

Brief description of the Company

The Andhra Sugars Limited ('the company") is a leading manufacturers' of Sugar, Industrial Alcohol, Caustic Soda &Chlor Alkali Products, Aspirin, Sulphuric Acid, Liquid & Solid Propellants, and also generating power through renewable and non-renewable resources.

Note 1: Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the group consisting of The Andhra Sugars Limited (the 'Company') and its subsidiaries.

(a) Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act)read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and guidelines issued by the Securities and Exchange Board of India (SEBI).

These financial statements are prepared under the historical cost convention except for certain class of financial assets/ liabilities and net liability for defined benefit plans that are measured at fair value.Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

(b) Principles of consolidation and equity accounting

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) Associates

Associates are all entities over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognised at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

(iv) Changes in ownership interests

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

c) Current and Non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. In respect of other assets, it is treated as current when it is:

- expected to be realized or intended to be sold or consumed in the normal operating cycle
- held primarily for the purpose of trading
- expected to be realized within twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- it is expected to be settled in the normal operating cycle
- it is held primarily for the purpose of trading
- it is due to be settled within twelve months after the reporting period, or
- there is no un conditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(d) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation and amortization

i) Depreciation on tangible fixed assets is charged over the estimated useful life of the asset,

- On part of buildings, Main plant and machinery and Electrical Installations of Caustic Soda division, Aspirin, Salicylic Acid, Wind Power at Ramagiri, Wind Power Tamilnadu, Power Generation and Sugar

units at Taduvai and Bhimadole and all buildings, Plant and Machinery, Electrical Installations, Weigh Bridges and Scales and Workshop Equipment of Cotton & Oil Products unit, Sulphuric Acid unit at SaggondaCoal based Power Plant at Saggonda and Solar Power Plant at Kovvur under Straight Line Method.

- On the remaining assets of the above units and all assets of other units, under Written Down value method.
- In respect of Inter unit Transfer of Assets, Depreciation is computed on the same basis as in the Transferor unit.
- In respect of the following assets, the useful life has been estimated by the technical personnel which is different from the life given under Part C of Schedule II of the Companies Act, 2013 as detailed here under:
  - Boilers, Chlorine storage Tank, MS Storage Tank, HCL Plant, DM Water plant, Diesel Generator set, ET Plant Pond, Turbines, Rectifiers, Cell Plant, Shell, Evaporation Plant, Fusion Plant, Sulphur Melting Station, Rotary Ball Mill, Bagassee Handling System, Centrifugal Machinery - 20 years.
  - MS Pipe lines, Refrigeration Plant, Distributed Control System, ET Plant, Brass Tubes, Bearings, Process Plant, Sodium Sulphate Recovery Plant - 15 years.
  - Cooling Towers, Instrumentation, Air Compressors, Chains - 10 years
  - Solar Plant - 25 years.

ii) Residual values and useful lives are reviewed, and adjusted, if appropriate, for each reporting period.

iii) Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each Balance Sheet date is classified as Capital advances under other Non-current assets and the cost of assets not put to use before such date are disclosed under Capital Work-in-Progress.

iv) Assets to be disposed off are reported at the lower of carrying value or fair value less cost to sell.

Capital work-in-progress

Projects under commissioning and other Capital work-in-progress are carried at cost comprising of direct and indirect costs, related incidental expenses and attributable interest. Depreciation on Capital work-in-progress commences when assets are ready for their intended use and transferred from Capital work-in-progress Group to Tangible Fixed Assets Group.

Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 25-40 years. The useful life has been determined based on technical evaluation performed by the management's expert.

e) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. In respect of approved Research and Development programme, expenditure of capital nature is included in the fixed assets and other expenditure is charged off to revenue in the year in which such expenditure is incurred.

f) Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and cost necessary to make the sale.

i) Cost of raw materials, components, stores, spares and work-in-process are valued at cost, determined on a first-in-first-out basis except stores & spares which are valued at weighted average cost.

ii) Materials and supplies held for use in production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost. Slow and non-moving material, obsolesces, defective inventories are duly provided for.

iii) By-products and scrap are valued at net realizable value and it is reduced from cost of the main product.

iv) Excess/ shortages, if any, arising on physical verification are absorbed in the respective consumption accounts.

v) The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

g) Cash flow statement:

Cash flows are reported using the indirect method, whereby the profit for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

h) Borrowings

Borrowing cost incurred in connection with the funds borrowed for acquisition/erection of assets that necessarily take substantial period of time to get ready for intended use, are capitalized as part of such assets. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. All other borrowing costs are charged to revenue.

i) Provisions and contingent liabilities

i) Provision:

A provision is recorded when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated. The estimated liability for product warranties is recorded when products are sold based on technical evaluation.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Provisions are discounted when time value of money is material. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expenses.

ii) Contingent liabilities:

Wherever there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

iii) Contingent assets:

Wherever there is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent asset is disclosed when the inflow of economic benefit is probable.

j) Fair value measurement:

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value resulting general approximation of value, and such value may never actually be realized.

k) Impairment

i. Financial Assets:

The company recognizes loss allowances using Expected Credit Loss (ECL) model for the financial assets which are not fair valued through Profit and Loss. Loss allowance for trade receivables are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial assets:

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are compared at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groupof assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

l) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). i.e in Indian rupee (INR) and all values are rounded off to nearest lakhs except where otherwise indicated.

(ii) Transactions and balances

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.

i) Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

ii) Non-monetary items denominated in foreign currency such as investments, fixed assets, etc., are valued at the exchange rate prevailing on the date of transaction.

iii) Exchange differences arising on settlement of transactions and translation of monetary items are recognized as income or expense in the year in which they arise.

(m) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

(n) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable and net of returns, trade allowances rebates and amounts collected on behalf of third parties. It excludes Goods and Services Tax.

Sale of products:

As per Ind AS 115, "Revenue from contracts with customers" Revenue from sale of products is recognized, when the performance obligation is satisfied, by transferring promised goods to the customer. An asset is transferred when (or as) the customer obtains control to the Asset, as per the terms of contract and it is probable that the economic benefits associated with the transaction will flow to the Company.

Internal Transfers from one unit to the other unit are recognized at Market value of the Product/Service at the Time of Transfer.

Interest Income:

Interest income from debt instruments is recognized using the effective interest rate method and is accrued on a time basis. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying value of a financial asset. While calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

Dividends:

Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be reliably measured.

(o) Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

p) Employee benefits

i) Short term obligations:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii) Other long-term employee benefit:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii) Post-employment obligation:

The Company operates the following post-employment schemes:

a) Defined benefit plans such as gratuity for its eligible employees,

b) Defined contribution plans such as provident fund and

c) Superannuation

Gratuity obligation:

The liability or asset recognized in the balance sheet in respect of defined benefit pension and gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the Government Bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (net-off

deferred tax). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Provident Fund and Employees' state Insurance Scheme:

Eligible employees of The Andhra Sugars Limited receive benefits from a provident fund and Employees' State Insurance scheme which is a defined contribution plan. Both the eligible employee and the company make monthly contributions to the Provident Fund and Employees' State Insurance equal to a specified percentage of the covered employee's salary.

Superannuation:

Certain employees of The Andhra Sugars Limited are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

(q) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(l) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell,

except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised.

A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

(r) Investments and other financial assets

(i) Classification

The group classifies its financial assets in the following measurement categories:

1. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
2. those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

(s) Debt instruments

Subsequent measurement of debt instruments depends on the group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

1. Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
2. Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of

principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

3. Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(t) Equity instruments

The group subsequently measures all equity investments at fair value. Where the group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term as follows:

1. Freehold buildings 25-40 years
2. Machinery 10-15 years
3. Furniture, fittings and equipment 3-5 years

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the group will obtain ownership at the end of the lease term.

Schedule II

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

u) Leases

The Company has adopted Ind AS 116-Leases effective from 1st April, 2019, using the modified retrospective method. The company has applied the standard to its lease with the cumulative impact recognised on the date of initial application (1stApril, 2019). Accordingly, previous period information has not been restated.

The Company's lease asset consists of lease for Building. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

(i) the contract involves the use of an identified asset

(ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and

(iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix. The provision matrix takes into account historical credit losse experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and the rates as per the provision matrix. The provison matrix as follows:

Ageing	Expected credit loss %
Within the credit period	**Nil**
Up to 60 days past due	0.25
60-90 days past due	0.50
more than 90 days past due	1.00

Credit risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract leading to Financial loss.

A The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual fund units that have a quoted price. The fair value of all equity instruments which are traded on Stock Exchanges is valued using the closing price as at the reporting period. The mutual fund units are valued using the closing net asset value (NAV).

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivates) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. These instruments are collectively not material and hence disclosures regarding significant unobservable inputs used in level 3 fair values have not been made.

Risk exposure and asset-liability matching

"Provision of a defined benefit scheme poses certain risks, some of which are detailed hereunder", as companies take on uncertain long term obligations to make future benefit payments."

1) Liability risks

a) Asset-liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements.

b) Discount rate risk

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practice can have a significant impact on the defined benefit liabilities.

c) Future salary escalation and inflation risk

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz. LIC of India and other insurance companies. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

Financial Instruments

a) Management of Credit Risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primary trade receivables) and from its investing activities, including deposits with banks and other financial instruments. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified.

The company's credit risk for trade receivables is as follows **(Rs.in lakhs)**

Particulars	Year ended 31st March, 2026	Year ended 31st March, 2025
Trade receivables	**22,769.26**	19,350.46

Balance at the beginning	**34.20**	29.80
Loss/(reversal) allowance recognised	**(14.47)**	4.40
Balance at the end	**19.73**	34.20

Credit risk on cash and cash equivalent is limited as the company generally transacts with banks and financial institutions with high credit ratings assigned by international and credit rating agencies.

b) Management of market risk

i) Fair value risk

ii) Foreign exchange risk

The above risks may affect income and expenses, or the value of its financial instruments of the Company. The objective of the Management of the Company for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Company exposure to, and the Management of, these risks is explained below:

i) Fair value risk

Potential impact of risk	Management policy	Sensitivity to risk
The Company is mainly exposed to the Fair value risk due to its investments in equity instruments. The Fair value risk arises due to uncertainties about the future market values of these investments. Equity Fair value risk is related to the change in market reference price of the investments in equity securities. In general, these securities are not held for trading purposes. These investments are subject to changes in the market price of securities.	In order to manage its Fair value risk arising from investments in equity instruments, the Company maintains its portfolio in accordance with the framework set by the Risk Management policies Any new investment or divestment must be approved by the Board of Directors, Chief Financial Officer and Risk Management Committee. "	As an estimation of the approximate impact of Fair value risk,with respect to investments in equity instruments, the Company has calculated the impact as follows.

C Management of Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its obligations associated with its financial liabilities that are settled by delivering cash or another financial asset as they fall due. The Company is expected to this risk from its operating activites and financial activities. The Company's approach to managing liability is to ensure as far as possible that it will have sufficient liquidity to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Liquidity requirements are maintained within the credit facilites established and are available to the Company to meet its obligations.

Since the arbitration award is under judicial review, income in respect of the same has not been recognised in the books of account.

43. In respect of M/s Hindustan Allied Chemicals Ltd., Loans & Advances as on 31.03.2026 include an outstanding amount of Rs.850.00 lakhs being the amount given as an Inter Corporate Loan under Section 186 of the Companies Act 2013 to M/s Sree Akkamamba Textiles Ltd., on the following terms & conditions:

SreeAkkamamba Textiles Ltd

a)	Amount of Advance	:	Rs.1000.00 Lakhs
b)	Interest Rate	:	8.50% p.a
c)	Security	:	Unsecured
d)	Purpose	:	To meet the gap of working capital.
e)	Loan Closure Date	:	30.06.2030
f)	Loan Terms	:	Seventeen Quarterly installments of Rs.50 lakhs each commencing from 30th June,2026 onwards.

44. In respect of Holding Company, Management approach and Key assumption used to determine the Fair Value under Level-3 hierarchy - Income approach is the valuation technique used for determination of the Fair value of the unquoted equity instruments in APGPCL. It converts future expected cash flows (savings in Power cost) to a single discounted amount by using the present value techniques. The Management of APGPCL has decided "Layoff" w.e.f 01.11.2022, due to cancellation of allocation of Natural Gas under advance price mechanism to the Company w.e.f 01.09.2022. Accordingly there is no supply of Power to "ASL", Since October 2022 to till date and also there is no certainty of supply of Power by APGPCL in future. Based on disruption of activities of APGPCL and non availability of Natural Gas and other legal issues there at the Fair Market value as at 31.03.2026 is determined as NIL.

45. During the year, the holding company (ASL) announced and implemented a Voluntary Retirement Scheme (VRS) for staff and workers of Sugar Units pursuant to suspension of operations of the unit. The Company has recognized an amount of Rs.440.16 lakhs towards VRS compensation as termination benefits during the year.

46. Consequent to the judgement given by the Hon'ble Supreme Court of India vide its order dated 29th November, 2019, upholding the power of Andhra Pradesh Electricity Regulatory Commission (APERC) to deter-

mine the levy of wheeling charges, the company has received demands from Andhra Pradesh Eastern Power Distribution Company limited (APEPDCL), for an amount of Rs.3092.18 lakhs in respect of four service numbers situated at Kovvuru, Taduvai, Tanuku and Gutala. The company has not received any demand in respect of one service situated at Saggonda from APEPDCL, which is not ascertainable on account of various pending cases at Hon'ble High Court of Andhra Pradesh and Telangana and Hon'ble Supreme of India, pertaining to wheeling charges and Allocation of Surplus power generated and transmitted by Andhra Pradesh Gas Power Corporation Limited (APGPCL) to its participating industries. Considering the revised wheeling charges as determined by APERC, in service situated at Saggonda, the company has to get refund of wheeling charges.

In this regard, the company has made liability towards differential wheeling charges and on account of allocation of surplus power based on the bills raised by APEPDCL for an amount of Rs.13132.36 lakhs. Further, the differential payments made to APGPCL were shown as advance to the extent of rs.6576.20 lakhs (including back up bank guarantees encashed to the extent of Rs.520.01 lakhs by APGPCL due to invocation of bank guarantees by AP Transco., consequent to the judgement of Hon'ble Supreme Court of India on wheeling charges.)

Pending disposal of cases on account of Allocation of Surplus power before Hon'ble Supreme Court of India, the liability towards wheeling charges as per APERC and energy charges payable to APEPDCL is unascertainable. Hence, the demands issued by APEPDCL need further revision and the company has contended for the demands raised by APEPDCL.

47. In respect of Holding Company The Company has to submit the monthly stock statements comprising of Raw materials, Stores & Spares, Work-in-Progress and Finished goods and to the bankers. During the current year, the variations between the statements submitted by the company to bank and actual balance at each quarter are Rs.104.41 Lakhs, Rs.195.14 Lakhs, Rs.145.60 Lakhs and Rs 182.47 Lakhs in Q1, Q2, Q3 and Q4 respectively .The positive figure indicates that the amount as per the books is higher than the amount reported in the statement submitted to the bank.

48. Decommissioning Liability: This provision has been created for estimated costs of dismantling and removing the movable assets and restoring the site in respect of leased premises on which the plant is super structured. The lease agreement is for a period of 30 years which was valid upto 26th June, 2019. The company has initiated the process of renewal of lease and estimated the decommissioning liability for a further period of 30 years, i.e., upto 27th June, 2049.

49. In respect of Associate Company (APL), Pending the decision of Hon'ble High Court of AP on the writ petition filed by the company, challenging the decision of Visakhapatnam Port Authority (VPA) in considering the leased land as commercial land in fixing the annual rent, instead of Industrial land, as considered in the earlier lease agreement. The company is paying the annual lease rent to VPA computed considering the Land taken on lease as Industrial land. If Hon'ble High Court of AP decides against the company, the company will be liable to pay the lease rent applicable at commercial rates, instead of the rate applicable to industrial rate, amounted to Rs 1286.90 lakhs.

50. Details of Transactions with struck off Companies u/s 248 of the Companies Act, 2013.

XL Softech Systems Limited (in case of shares held in physical mode). No deduction of taxes in the following cases - a If dividend income to a resident Individual shareholder during FY 2025-26 does not exceed INR 10,000. a If shareholder is exempted from TDS provisions through any circular or notification and provides an attested copy of the PAN along with the documentary evidence in relation to the same.
Submitting Form 121	NIL	Eligible Shareholder providing Form 121 (applicable to any person other than a Company or a Firm) / Form 121 (applicable to an Individual above the age of 60 years) - on fulfillment of prescribed conditions.
Order under section 395 of the Act	Rate provided in the order	Lower/NIL withholding tax certificate obtained from Income Tax Authorities.
Insurance Companies: Public & Other Insurance Companies	NIL	Documentary evidence that the provisions of section 393 of the Act are not applicable.
Corporation established by or under a Central Act which is, under any law for the time being in force, exempt from income- tax on its Income.	NIL	Documentary evidence that the person is covered under section 393 of the Act.

Please Note that:

a) In the absence of valid PAN, tax will be deducted at a higher rate of 20% as per the Act.

b) Share holders holding shares under multiple accounts under different status / category and single PAN, may note that, applicable TDS will be made on their entire cumulative holding in different Accounts.

c) The documents as mentioned in the above table are required to be sent to us at the Registered Office of the Company or may be sent by way of email to investors@theandhrasugars.com on or before 24th September, 2026 in order to enable the Company to determine and deduct appropriate TDS / withholding tax rate. No communication/documents on the tax determination / deduction shall be considered post 24th September, 2026.

d) The Company will arrange to send TDS certificate to the shareholders in due course.

e) The tax credit can also be viewed in Form 26AS by logging in with your credentials (with valid PAN) at TRACES https://www.tdscpc.gov.in/app/lojgin.xhtml or the e-filing website of the Income Tax department of India https://www.incometaxindiaefiling.gov.in/home.

f) In the event of any income tax demand (including interest, penalty, etc.) arising from any misrepresentation, inaccuracy or omission of information provided by the Shareholder's, such Shareholder/s will be responsible to indemnify the Company and also, provide the Company with all information/documents and co-operation in any appellate proceedings.

g) In case where shares held by intermediaries/ stock brokers and TDS is to be deducted in the PAN of the beneficial shareholders then intermediaries/ stock brokers and beneficial shareholders will have to provide a declaration in this regard. This declaration should be shared within 2 days from the record date. No declaration shall be accepted after 2 days from the record date.

h) It may be further noted that in case the tax on said Final Dividend is deducted at a higher rate in the absence of receipt of the aforementioned details/documents from you, there would still be an option available with you to file the return of income and claim an appropriate refund, if eligible. No claim shall lie against the Company for such taxes deducted.

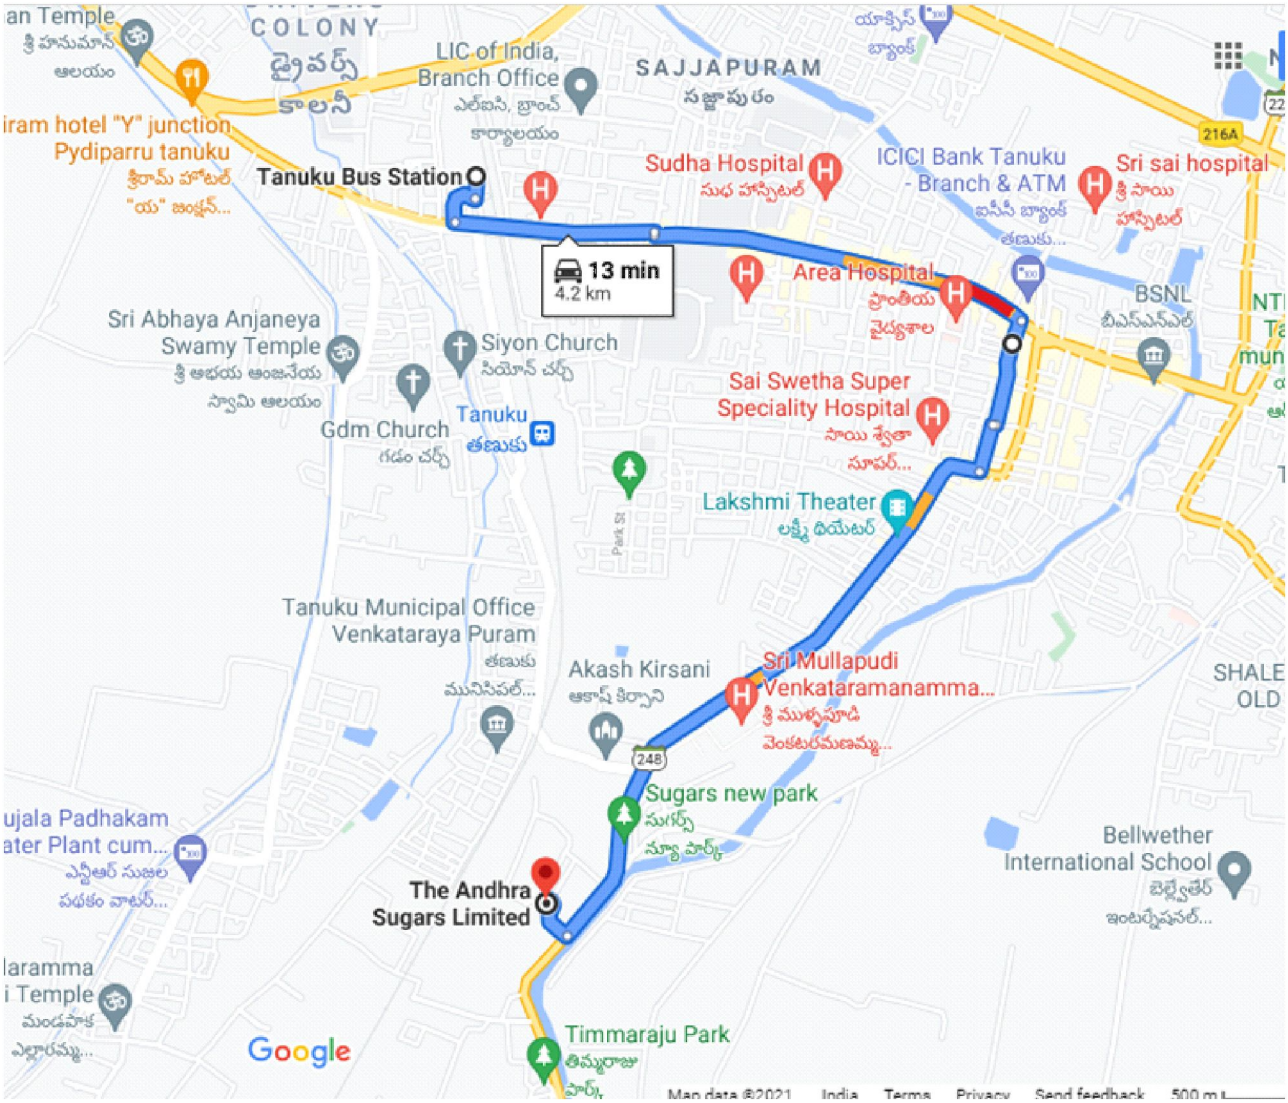

Disclaimer: This communication shall not be treated as an advice from the Company or its Registrar & Transfer Agent. Shareholders should obtain the tax advice related to their tax matters from a tax professional.
